

Argumentative essay

introduction: Example

The spread of the internet has had a world-changing effect, not least on the world of education. The use of the internet in academic contexts is on the rise, and its role in learning is hotly debated. For many teachers who did not grow up with this technology, its effects seem alarming and potentially harmful. This concern, while understandable, is misguided. The negatives of internet use are outweighed by its critical benefits for students and educators -- as a uniquely comprehensive and accessible information source, a means of exposure to and engagement with different perspectives, and a highly flexible learning environment.
