Managerial Accounting 4th Edition Wild:

Management Accounting, 4th Edition Leslie G. Eldenburg, Albie Brooks, Judy Oliver, Gillian Vesty, Rodney Dormer, Vijaya Murthy, Nick Pawsey, 2020-01-21 Eldenburg's fourth edition of Management Accounting combines the basic technical issues associated with cost management, management accounting and control with more recent and emerging themes and issues. Management Accounting is a compulsory element of the accounting major and this text is written to cover the content typically taught in the two management accounting units offered in most accounting programs. The Management Accounting interactive e-text features a range of instructional media content designed to provide students with an engaging learning experience. This includes case videos, interactive problems and questions with immediate feedback. Eldenburg's unique resource can also form the basis of a blended learning solution for lecturers.

Rethinking Management Boris Kaehler, Jens Grun-dei, 2025-08-27 The concept of management is well established and very familiar to scholars and practitioners alike. However, it is also very generic with no agreed upon definition and no consistency in the demarcation between it and its sub-concepts and other similar terms. Building on an in-depth analysis of literature, this book establishes a precise understanding of management and systematically integrates its sub-concepts of organization, governance, strategic management, human resource management, leadership and organizational culture. It thus provides a clear theoretical and conceptual framework helping researchers to theorize and practitioners to implement corporate management models.
