Tourism Planning and Development in South Asia Dimitrios Styliadis, Boopen Seetanah, 2021-04-09 Tourism has huge significance as a global economic and social phenomenon and given the growing reliance on the industry by service dependent economies around the world the lack of focus on tourism planning and development in South Asia is surprising Current issues including

social environmental and cultural aspects underpinned by security challenges have defined the tourism development narratives in many South Asian countries over the last decades and lead to fluid demand and supply patterns The appetite for and reliance on tourism growth is seen regardless of the numerous challenges faced by the region Despite a rich and steady history of tourism and demand driven by numerous pull destinations most South Asian countries have not invested or benefitted from global tourism growth trends *Quarterly Review - Federal Reserve Bank of Minneapolis* Federal Reserve Bank of Minneapolis,1990
