1. About this document

Intended audience

This document is intended to be used by system administrators and others experienced in working with server applications. This document will be used in concert with the Handheld SP400X Series Configuration Software to configure your organization's server to communicate with the Handheld SP400X. The configuration software is available for download at www.handheldgroup.com/manuals.

Additional Handheld SP400X documents

- For general instructions for using and maintaining the SP400X, see the Handheld SP400X Series SP400X Scanner Printer System Administrator Guide.

- For help designing your organization's print templates, see the Handheld SP400X Series Template Design Software User Guide.

- For information about implementing the server application, see Communication Protocols.

All of these documents are available at www.handheldgroup.com/manuals.

System requirements

- SP400X device and accessories

- Wireless network and server application

- Computer with the following installed on it:

  - Windows® XP and Service Pack 2

  - Microsoft® .NET Framework 2.0 or later

- USB-compliant cable that does not exceed three meters (10 feet) in length, with a type B 5-pin plug at one end to connect to the SP400X's port

NOTE: If you are connected to the internet when you install the software and you do not have .NET Framework installed on your computer, .NET Framework will automatically be downloaded and installed.
