Introducing the IB Diploma Programme Marc Abrioux, Jill Rutherford, 2013-02-14 Schools wishing to introduce the IB diploma programme are faced with major investment in terms of time effort and money in order to become authorised This manual is a resource for schools already offering the diploma as well as for prospective diploma schools *Conflict Landscapes: An Archaeology of the International Brigades in the Spanish Civil War* Salvatore Garfi, 2019-08-31 This volume is an archaeological exploration of the conflict landscapes encountered by volunteers of the International Brigades in the Spanish Civil War 1936-39 This research draws not only on the techniques of landscape archaeology but also on the writings of international volunteers in Spain in particular George Orwell *TV Socialism* Anikó Imre, 2016-05-19 In *TV Socialism* Anikó Imre provides an innovative history of television in socialist Europe during and after the Cold War Rather than uniform propaganda programming Imre finds rich evidence of hybrid aesthetic and economic practices including frequent exchanges within the region and with Western media a steady production of varied genre entertainment elements of European public service broadcasting and transcultural multi lingual reception practices These televisual practices challenge conventional understandings of culture under socialism divisions between East and West and the divide between socialism and postsocialism Taking a broad regional perspective encompassing Eastern Europe and the Soviet Union Imre foregrounds continuities between socialist television and the region's shared imperial histories including the programming trends distribution patterns and reception practices that extended into postsocialism Television she argues is key to understanding European socialist cultures and to making sense of developments after the end of the Cold War and the enduring global legacy of socialism Singapore Jason Lim, Terence Lee, 2016-05-26 On 9 August 2015 Singapore celebrated its 50th year of national independence a milestone for the nation as it has overcome major economic social cultural and political challenges in a short period of time Whilst this was a celebratory event to acknowledge the role of the People's Action Party (PAP) government it was also marked by national remembrance as founding Prime Minister Lee Kuan Yew died in March 2015 This book critically reflects on Singapore's 50 years of independence Contributors interrogate a selected range of topics on Singapore's history culture and society including the constitution education religion and race and thereby facilitate a better understanding of its shared national past Central to this book is an examination of how Singaporeans have learnt to adapt and change through PAP government policies since independence in 1965 All chapters begin their histories from that point in time and each contribution focuses either on an area that has been neglected in Singapore's modern history or offer new perspectives on the past Using a multi disciplinary approach it presents an independent and critical take on Singapore's post 1965 history A valuable assessment to students and researchers alike *Singapore Negotiating State and Society 1965-2015* is of interest to specialists in Southeast Asian history and politics Mexicano and Latino Politics and the Quest for Self-Determination Armando Navarro, 2015-01-08 This book examines the current status of Mexican and Latino politics in

the United States Political scientist and community activist Armando Navarro maintains that both represent a dysfunctional and failed mode of politics attributable to their system maintenance and mainstream ideological orientation and approach As colonial agents they protect both a United States that is decaying and declining and the degenerative liberal capitalist system Navarro argues that the United States is not a representative democracy but in fact is a White Corpocratic Dictatorship controlled by Capital which is evolving into a Fascist State The book provides an in depth analysis and contention that Mexicanos and Latinos in Aztlan Southwest are an occupied and internal colonized people It argues they are the Palestinians and Kurds of the United States His supposition is sustained by the book s profiles of Mexicano political history demography socioeconomics electoral politics immigration and the Triad Crisis e g Second Great Depression Global Economic Crisis and Global Capitalist Crisis Each chapter provides the justification and case for Navarro s two unique alternative change models applicable to today s bankrupt and failed Mexicano and Latino Politics in the twenty first century The preferred model is Aztlan s Politics of a Nation Within a Nation APNWN which is based on the models of the Mormon Nation of Utah and that of French Quebec Navarro therefore calls for the reformation of the United States liberal capitalist system by way of social democracy for the empowerment of Mexicanos and Latinos His second model is Aztlan s Politics of Separatism APS which offers two strategic options 1 Aztlan Southwest becoming a separate and sovereign nation state or 2 its reannexation and re integration with Mexico Navarro outlines a plan of action for building a New Movement designed to attain APNWN or APS In addition several ominous forecasts are made such as the United States being in a state of decline and no longer a hegemonic superpower due to the rise of a multi polar world Moreover Navarro attributes the United States decline to the inherent contradictions of global capitalism His sobering message is that if the current economic conditions are left unchanged this will produce an End of Times scenario the unleashing of the Four Horseman of the Apocalypse **The Promises of Spring**

Which will be sold July 1780 Payne Thomas and son,1780 *Images of Women in Hispanic Culture* Teresa Fernandez Ulloa,2016-08-17 This book studies the ways traditional polarized images of women have been used and challenged in the Hispanic world especially during the 20th century and the beginning of the 21st century by writers and the media but also in earlier time periods The chapters analyze the image of women in specific political periods such as Francoism or the Kirchners administration stereotypes of women in films in Mexico and Chile and the representation of women in textbooks among other topics Contributions also show how two women writers in the 17th and the 19th centuries viewed the role of women in their society Personality and Cognition in Economic Decision Making Aurora García-Gallego,Manuel I. Ibáñez,Nikolaos Georgantzis,2017-08-22 Psychologists studying cognitive processes and personality have increasingly benefited from the wealth of theory methodology and decision making paradigms used in economics and game theory Similarly for the economists personality traits and basic cognitive processes offer a set of coherent explanatory constructs in economic behavior Given the debate on preference invariance and behavioral consistency across contexts and domains the papers in this topic shed light on the existence and effect of stable sets of idiosyncratic features on economic decision making While the effects of personality and cognition on economic decisions remain under explored the papers contributed in this topic offer more than a stimulus for further research The general message could be that personality and cognitive processes offer the stable idiosyncratic ground on which individual decisions are made Hand of the prince Pablo de Orellana,2025-03-18 This book is dedicated to how diplomacy makes develops and trades in knowledge It proposes an approach to examine how diplomatic knowledge production describes what diplomats see how these descriptions develop and whether they were convincing to one s own policymakers or even those of other actors These descriptions are vital actors can be inserted into global categories Communism or Terrorism that beget significant security relational and policy consequences Diplomacy and policy constitute the world we inhabit based on what policymakers made of descriptions assessments and analysis Such is the power of knowing who we and the others are **Outsourcing Empire** Andrew Phillips,J C Sharman,2022-05-24 How chartered company states spearheaded European expansion and helped create the world s first genuinely global order From Spanish conquistadors to British colonialists the prevailing story of European empire building has focused on the rival ambitions of competing states But as Outsourcing Empire shows from the seventeenth to the twentieth centuries company states not sovereign states drove European expansion building the world s first genuinely international system Company states were hybrid ventures pioneering multinational trading firms run for profit with founding charters that granted them sovereign powers of war peace and rule Those like the English and Dutch East India Companies carved out corporate empires in Asia while other company states pushed forward European expansion through North America Africa and the South Pacific In this comparative exploration Andrew Phillips and J C Sharman explain

the rise and fall of company states why some succeeded while others failed and their role as vanguards of capitalism and imperialism In dealing with alien civilizations to the East and West Europeans relied primarily on company states to mediate geographic and cultural distances in trade and diplomacy Emerging as improvised solutions to bridge the gap between European rulers expansive geopolitical ambitions and their scarce means company states succeeded best where they could balance the twin imperatives of power and profit Yet as European states strengthened from the late eighteenth century onward and a sense of separate public and private spheres grew the company states lost their usefulness and legitimacy Bringing a fresh understanding to the ways cross cultural relations were handled across the oceans *Outsourcing Empire* examines the significance of company states as key progenitors of the globalized world *Farmer's Weekly*, 1923

The Postwar Legacy of Appeasement R. Gerald Hughes, 2014-01-16 Focusing on the Cold War and the post Cold War eras R. Gerald Hughes explores the continuing influence of Appeasement on British foreign policy and re evaluates the relationship between British society and Appeasement both as historical memory and as a foreign policy process *The Postwar Legacy of Appeasement* explores the reaction of British policy makers to the legacies of the era of Appeasement the memory of Appeasement in public opinion and the media and the use of Appeasement as a motif in political debate regarding threats faced by Britain in the post war era Using many previously unpublished archival sources this book clearly demonstrates that many of the core British beliefs and cultural norms that had underpinned the Chamberlainite Appeasement of the 1930s persisted in the postwar period

Microfinance and Financial Inclusion Eugenia Macchiavello, 2017-07-20 Following the recent global financial crisis there is a growing interest in alternative finance and microfinance in particular as new instruments for providing financial services in a socially responsible way or as an alternative to traditional banking Nonetheless correspondingly there is also a lack of clarity about how to regulate alternative financial methods particularly in light of the financial crisis lessons on regulatory failure and shadow banking's risks This book considers microfinance from a legal and regulatory perspective Microfinance is the provision of a wide range of financial services particularly credit but also remittances savings to low income people or financially excluded people It combines a business structure with social inspiration often resorts to technological innovations to lower costs Fintech e.g. crowdfunding and mobile banking and merges with traditional local experiences e.g. financial cooperatives and Islamic finance this further complicating the regulatory picture The book describes some of the unique dimensions of microfinance and the difficulties that this can cause for regulators through a comparative analysis of selected European Union EU countries regimes The focus is in fact on the EU legal framework with some references to certain developing world experiences where relevant The book assesses the impact and validity of current financial regulation principles and rules in light of the most recent developments and trends in financial regulation in the wake of the financial crisis and compares microfinance with traditional banking The book puts forward policy recommendations for regulators and policy makers to help address the challenges and opportunities offered

by microfinance International Law, Necropolitics, and Arab Lives Khaled Al-Kassimi, 2022-10-27 International Relations and International Law continue to be accented by epistemic violence by naturalizing a separation between law and morality. What does such positivist juridical ethos make possible when considering that both disciplines reify a secular immanent ontology? International Law, Necropolitics, and Arab Lives emphasizes that positivist jurisprudence re-conquered Arabia by subjugating Arab life to the power of death using extrajudicial techniques of violence seeking the implementation of a New Middle East that is no longer resistant to Latin European modernity but amenable to such exclusionary telos. The monograph goes beyond the limited remonstrance asserting that the problem with both disciplines is that they are primarily Eurocentric. Rather, the epistemic inquiry uncovers that legalizing necropower is necessary for the temporal coherence of secular modernity since a humanitarian logic masks sovereignty inherently being necropolitical by categorizing Arab Islamic epistemology as an internal external enemy from which nationalist citizenship must be defended. This creates a sense of danger around which to unite modern epistemology whilst reinforcing the purity of a particular ontology at the expense of banning and de-humanizing a supposed impure Arab refugee. This book will be of interest to graduate students, scholars, and finally practitioners of international relations, political theory, philosophical theology, and legal theory.
