Managerial Accounting 4th Edition:

Management Accounting, 4th Edition Leslie G. Eldenburg, Albie Brooks, Judy Oliver, Gillian Vesty, Rodney Dormer, Vijaya Murthy, Nick Pawsey, 2020-01-21 Eldenburg's fourth edition of Management Accounting combines the basic technical issues associated with cost management, management accounting and control with more recent and emerging themes and issues. Management Accounting is a compulsory element of the accounting major and this text is written to cover the content typically taught in the two management accounting units offered in most accounting programs. The Management Accounting interactive e-text features a range of instructional media content designed to provide students with an engaging learning experience. This includes case videos, interactive problems and questions with immediate feedback. Eldenburg's unique resource can also form the basis of a blended learning solution for lecturers.

Financial and Managerial Accounting Jerry J. Weygandt, Paul D. Kimmel, Jill E. Mitchell, 2020-11-17 Financial and Managerial Accounting 4th Edition provides students with a clear introduction to the fundamental financial and managerial concepts needed for anyone pursuing a career in accounting or business. Through a focus on accounting transactions, real world industry examples and robust assessment, students develop a solid understanding of how to apply accounting principles and techniques in practice. By connecting the classroom to the business world with an emphasis on decision making and key data analysis skills appropriate at the introductory level, Financial and Managerial Accounting ensures students are more engaged and better prepared for careers as professionals in the modern business world.
