Management Accounting and Asian Perspectives Carsten

Berkau, Keabetswe Sylvia Berkau, Mohd Ridzuan Darun, 2021-10-18. The book starts with a comparison of financial accounting and management accounting, both discussed based on the production firm PENOR Ltd. It further demonstrates accounting work in support of general management, CVP analysis, DOL, performance measurement, risk management and M/A as well as cost accounting structures for absorption and marginal cost accounting systems, internal cost allocations, reporting, monitoring, manufacturing accounting, calculation, contribution margin accounting and activity based costing. The content is explained by detailed case studies. This Asia edition also includes real case studies about companies in Malaysia. All chapters outline the learning objectives, provide an overview, include case studies and how it is done, paragraphs. They end with a summary, the explanation of new technical terms and a question bank with solutions for checking your learning progress. On

the internet you can find more than 300 exam tasks with solutions as well as youtube videos from the authors

Basics of Accounting Carsten Berkau, Keabetswe Sylvia Berkau, 2018-04-23 Basics of Accounting targets students in international business study programs. It covers the widely applied syllabus of Accounting at universities on bachelors and masters level. In this book the application of the methods comes first. The Basics teach how to do Accounting by a case study based approach. All cases were taken from former exam papers at international universities and calculated completely and illustrated understandably. Bookkeeping and Financial Accounting covers the preparation of financial statements based on IFRS. Bookkeeping is taught as far as it is required for the understanding by managers; more formal aspects about how to keep financial records are cut short to the minimum.

Management and Cost Accounting Andreas Taschner, Michel Charifzadeh, 2020-09-01 Management and cost accounting has been the basic toolbox in business administration for decades. Today it is an integral part of all curricula in business education and no student can afford not to be familiar with its basic concepts and instruments. At the same time business in general and management accounting in particular is becoming more and more international. English clearly has evolved as the lingua franca of international business. Academics students as well as practitioners exchange their views and ideas, discuss concepts and communicate with each other in English. This is certainly also true for cost accounting and management accounting. Management Accounting is becoming increasingly international. Management and Cost Accounting is a new English language textbook covering concepts and instruments of cost and management accounting at an introductory level. Bachelor but also suited for MBA courses due to strong focus on practical applications and cases. This textbook covers all topics that are relevant in management accounting in business organizations and that are typically covered in German and Central European Bachelor classes on cost accounting and management accounting. After an introduction to the topic including major differences between the German approach and the purely Anglo Saxon approach of management accounting, the book describes different cost terms and concepts applied in German cost accounting. The book is much more specific here compared to US American standard textbooks. Based on different cost concepts the topic of cost behavior is discussed including the determination of cost functions. The heart of the book guides the reader through the general structure of a fully developed cost accounting system following the German and Central European standard. It starts with cost type accounting, moves on to cost center accounting and finally deals with cost unit accounting, assigning cost to goods and services offered in the market. The remaining parts of the book deal with decision making and how management and cost accounting data can support managers in this task. A comparison of absorption costing and variable costing introduces the reader to management decisions such as product portfolio and outsourcing decisions. Additionally, cost volume profit analysis, break even analysis is covered. The book closes with a comprehensive treatment of cost planning and variance analysis.

Reshaping Accounting and Management Control Systems Katia Corsi, Nicola Giuseppe Castellano, Rita Lamboglia, Daniela Mancini, 2017-03-21 This book examines the relationship between

digital innovations on the one hand and accounting and management information systems on the other. In particular, it addresses topics including cloud computing, data mining, XBRL, and digital platforms. It presents an analysis of how new technologies can reshape accounting and management information systems, enhancing their information potentialities and their ability to support decision-making processes, as well as several studies that reveal how managerial information needs can affect and reshape the adoption of digital technologies. Focusing on the four major aspects: data management, information system architecture, external and internal reporting, the book offers a valuable resource for CIOs, CFOs, and more generally for business managers, as well as for researchers and scholars. It is mainly based on a selection of the best papers, original double-blind reviewed contributions presented at the 2015 Annual Conference of the Italian Chapter of the Association for Information Systems (AIS). *ECIE 2018 13th European Conference on Innovation and Entrepreneurship*. Professor Carlos Costa, Dr. Manuel Au-Yong-Oliveira, Dr. Marlene Paula Castro Amorim, 2018-09-20. Forthcoming Books. Rose Arny, 2002.
