Brown, 2016-05-20 Rural societies around the world are changing in fundamental ways both at their own initiative and in response to external forces The Routledge International Handbook of Rural Studies examines the organisation and transformation of rural society in more developed regions of the world taking an interdisciplinary and problem focused approach Written by leading social scientists from many countries it addresses emerging issues and challenges in innovative and provocative ways to inform future policy This volume is organised around eight emerging social economic and environmental challenges Demographic change Economic transformations Food systems and land Environment and resources Changing configurations of gender and rural society Social and economic equality Social dynamics and institutional capacity Power and governance Cross cutting these challenges are the growing interdependence of rural and urban the rise in inequality within and between places the impact of fiscal crisis on rural societies neoliberalism power and agency and rural areas as potential sites of resistance The Routledge International Handbook of Rural Studies is required reading for anyone concerned with the future of rural areas

Ideology, Political Transitions and the City Aleksandra Djurasovic, 2016-06-10 Recent history has seen Bosnian and Herzegovinian BiH cities undergoing several transitions Their cities have developed under socialism 1945 1992 have suffered through the civil war during the 1990s and during the last twenty years have been undergoing a slow and multifaceted transition to an indeterminate end point Focusing on the post socialist postwar and neoliberal transitions experienced in BiH the book shows that planning systems deviated from control oriented and top down regulation to flexible approaches for more open for informal development The book analyzes several levels of planning related processes the former Yugoslavia BiH the city of Mostar and three urban zones the Industrial Zone Bi e Polje the City Zone Rondo and the Historic District and the Old Town Zone in order to offer insights into the new planning systems in the late phase of post socialist transition

The Transformation of University Institutional and Organizational Boundaries Emilia Primeri, Emanuela Reale, 2015-11-02 An emerging issue in higher education studies is that of boundaries crossing This is the main topic of the book The

transformation of University institutional and organizational boundaries Several signals of shifting boundaries can be envisaged in higher education and research institutions which could be glimpsed through organizations the institutions and changes to the academic profession That of boundaries crossing in Higher Education is a complex and heterogeneous issue which characterizes scientific knowledge today and represents a key issue when looking at University transformations across contexts and policies instruments and practices The analysis of boundaries supplies interpretative frameworks for the interactions between the development of professions and disciplines as well as the relationships of the science with various parts of society such as state professionals and the market Fuelling further the discussion on HEIs transformations allows capturing changes in the function objectives and scope of higher education and research institutions the move beyond sectoral and disciplinary boundaries and the increasingly blurred boundaries of academic professions and of scientific work Public policies and HE reforms can push or impede the mentioned transformations but they can also derive from individual likelihood of moving in blurring spaces or from the transformations of the epistemic communities and the emergence of new fields and sectors Hence changes are there open to our observations

Private foundations
Great Britain: Parliament: House of Commons: International Development Committee, 2012-01-20 The International Development Committee reports that private philanthropy is improving the lives of some of the world's poorest people but the Department for International Development DFID must do more to engage private foundations in coordinated global efforts to improve the effectiveness of aid While private foundations make a huge contribution concerns have been raised about the transparency and accountability Foundations should sign up to International Aid Transparency Initiative guidelines and be brought into global structures to ensure that they coordinate their work with other donors DFID currently engages with foundations on an ad hoc basis and the report recommends a more systematic approach to the Department's relationship with private philanthropic organisations The Committee recognises that DFID officials cannot meet all small

foundations on a one to one basis but it believes that the Department should make more efforts to engage with them A designated contact official for foundations should be established and a DFID minister should hold an annual meeting with groups of smaller foundations The Department should produce a publication indicating what DFID funding foundations might apply for and how to apply DFID should include foundations as fully as possible in future development events and processes including the High Level Forum on Aid Effectiveness the forthcoming Rio 20 UN Conference on Sustainable Development and discussions of a post 2015 Millennium Development Goal Framework
