Managing Protected Areas A Global Guide:

Managing Protected Areas Michael Lockwood, Graeme Worboys, Ashish Kothari, 2006 First Published in 2006 Routledge is an imprint of Taylor Francis an informa company **Managing Protected Areas** Michael Lockwood, Graeme Worboys, Ashish Kothari, 2012-05-04 This handbook produced by world renowned experts from the World Conservation Union IUCN spans the full terrain of protected area management and is the international benchmark for the field The book employs dozens of detailed international cases studies hundreds of concise topical snapshots maps tables illustrations and a colour plate section as well as evaluation tools checklists and numerous appendices to cover all aspects of park management from biodiversity to natural heritage to financial management The book establishes a conceptual underpinning for protected area management presents guiding principles for the 21st century reflects recent work on international best practice and provides an assessment of skills required by professionals As the most authoritative guide ever compiled to the principles and practice of protected area management this volume is essential for all professionals and students in all countries and contexts

Protected Area Governance and Management Graeme L. Worboys, Michael Lockwood, Ashish Kothari, Sue Feary, Ian Pulsford, 2015-04-08 Protected Area Governance and Management presents a compendium of original text case studies and examples from across the world by drawing on the literature and on the knowledge and experience of those involved in protected areas The book synthesises current knowledge and cutting edge thinking from the diverse branches of practice and learning relevant to protected area governance and management It is intended as an investment in the skills and competencies of people and consequently the effective governance and management of protected areas for which they are responsible now and into the future The global success of the protected area concept lies in its shared vision to protect natural and cultural heritage for the long term and organisations such as International Union for the Conservation of Nature are a unifying force in this regard Nonetheless protected areas are a socio political phenomenon and the ways that nations understand govern and manage them is always open to contest and debate The book aims to enlighten educate and above all to challenge readers to think deeply about protected areas their future and their past as well as their present The book has been compiled by 169 authors and deals with all aspects of protected area governance and management It provides information to support capacity development training of protected area field officers managers in charge and executive level managers Guidelines for Protected Areas Legislation Barbara J. Lausche, 2011 The central aim of this publication is to consider the key elements of a modern comprehensive and effective legal framework for successful management of protected areas They provide practical guidance for all those involved in developing improving or reviewing national legislation on protected areas be they legal drafters and practitioners protected area managers interested NGOs or scholars These guidelines include fifteen case studies eight dealing with the protected area legislation of individual countries and six cases dealing with specific sites providing fundamental solutions that stand the test of time Securing protected areas in the

face of global change : key lessons learned from case studies and field learning sites in protected areas Peter Shadie,2008

Tourism and National Parks Warwick Frost,C. Michael Hall,2012-08-21 In 1872 Yellowstone was established as a National Park The name caught the public s imagination and by the close of the century other National Parks had been declared not only in the USA but also in Australia Canada and New Zealand Yet as it has spread the concept has evolved and diversified In the absence of any international controlling body individual countries have been free to adapt the concept for their own physical social and economic environments Some have established national parks to protect scenery others to protect ecosystems or wildlife Tourism has also been a fundamental component of the national parks concept from the beginning and predates ecological justifications for national park establishment though it has been closely related to landscape conservation rationales at the outset Approaches to tourism and visitor management have varied Some have stripped their parks of signs of human settlement while increasingly others are blending natural and cultural heritage and reflecting national identities This edited volume explores in detail the origins and multiple meanings of National Parks and their relationship to tourism in a variety of national contexts It consists of a series of introductory overview chapters followed by case study chapters from around the world including insights from the US Canada Australia UK Spain France Sweden Indonesia China and Southern Africa Taking a global comparative approach this book examines how and why national parks have spread and evolved how they have been fashioned and used and the integral role of tourism within national parks The volume s focus on the long standing connection between tourism and national parks and the changing concept of national parks over time and space give the book a distinct niche in the national parks and tourism literature The volume is expected to contribute not only to tourism and national park studies at the upper level undergraduate and graduate levels but also to courses in international and comparative environmental history conservation studies and outdoor recreation management

Wetlands and International Environmental Law Royal C. Gardner,Richard Caddell,Erin Okuno,2025-02-12 Marking the 50th anniversary of the Ramsar Convention the first modern multilateral environmental agreement this timely book reflects upon the Convention s work and its wider impact upon the protection of aquatic resources and wetland dependent species

Water and the Law Michael Kidd,Loretta Feris,Tumai Murombo,Alejandro Iza,2014-12-31 Water and the Law examines the critical relationship between law and the management of water resources in the context of ensuring environmental sustainability It highlights the central importance of integrated water resources management and cooperati

World Heritage Conservation Claire Cave,Elene Negussie,2017-10-12 The UNESCO World Heritage Convention has become one of the most successful UN instruments for promoting cultural diplomacy and dialogue on conservation of cultural and natural heritage This book provides an overview of the convention through an interdisciplinary approach to conservation It shows that based on the notion of outstanding universal value and international cooperation for the protection of heritage the convention provides a platform for sustainable development through the conservation and management of heritage of

significance to humanity With increasing globalization of heritage World Heritage Conservation is reviewed as an emerging interdisciplinary field of study creating new opportunities for inclusive heritage debate both locally and globally requiring common tools and understanding With over a thousand properties inscribed on the World Heritage List from biologically diverse sites such as the Central Amazon Conservation Complex to the urban landscape of the metropolis of Rio de Janeiro the book will help students researchers and professionals in the identification protection conservation and presentation of World Heritage Targeted at a diversity of disciplines the book critically describes the strategies for implementing the convention and the processes of heritage governance for sustainable development Food Production and Nature

Conservation Iain J. Gordon, Herbert H.T. Prins, Geoff R. Squire, 2016-11-25 Feeding the world's growing human population is increasingly challenging especially as more people adopt a western diet and lifestyle Doing so without causing damage to nature poses an even greater challenge This book argues that in order to create a sustainable food supply whilst conserving nature agriculture and nature must be reconnected and approached together The authors demonstrate that while the links between nature and food production have to some extent already been recognized until now the focus has been to protect one from the impacts of the other Instead it is argued that nature and agriculture can and should work together and ultimately benefit from one another Chapters describe efforts to protect nature through globally connected protected area systems and illustrate how farming methods are being shaped to protect nature within agricultural systems The authors also point to many ways in which nature benefits agriculture through the ecosystem services it provides Overall the book shows that nature conservation and food production must be considered as equally important components of future solutions to meet the global demand for food in a manner that is sustainable for both the human population and the planet as a whole

Indigenous Peoples, National Parks, and Protected Areas Stan Stevens, 2014-09-18 This passionate well researched book makes a compelling case for a paradigm shift in conservation practice It explores new policies and practices which offer alternatives to exclusionary uninhabited national parks and wilderness areas and make possible new kinds of protected areas that recognize Indigenous peoples rights and benefit from their knowledge and conservation contributions Provided by publisher

Geodiversity Murray Gray, 2013-08-19 The first book to focus exclusively on the subject Geodiversity Second Edition describes the interrelationships between geodiversity and biodiversity the value of geodiversity to society as well as current threats to its existence Illustrated with global case studies throughout the book examines traditional approaches to protecting geodiversity and the new management agenda now being implemented The Second Edition of this successful textbook continues to build on the success of the first edition which is still the standard reference for the subject Fully revised and updated throughout the Second Edition now includes new material on geoparks geotourism and implications of climate change for geoconservation Reviews of previous edition Murray Gray's new book is the first widely available text to bring together and analyse some of these emerging ideas The result is a book that should be in the library of every land

manager and one that is likely to lead many practicing geoscientists and quaternarists to a new view of the importance of their field for nature conservation and environmental management *Journal of Quaternary Science* Vol 19 No 8 December 2004 It is strange that it is necessary to justify the importance of geodiversity Murray Gray does it with brilliance not only to convince non believers but giving inspiration to us that have worked in geoconservation for a long time *ProGEO News* 3 4 2003 The author provides a timely review of recent advances in the integration of geodiversity into wider conservation and planning strategies *Journal of Quaternary Science* Vol 19 No 8 December 2004 the book is well written and follows a clear and concise outline *Environmental Geology* Vol 48 No 2 July 2005

Environmental Issues Today Robert J. Duffy, Susan M. Opp, 2020-11-09 This two volume set provides an authoritative overview of the major environmental issues of the 21st century with a special focus on current challenges trends and policy choices This set provides an up to date comprehensive and focused resource for understanding the nature and scope of environmental challenges facing the United States and the world in the 21st century as well as options for meeting those challenges Volume One covers environmental trends and challenges within the United States while Volume Two illuminates environmental issues and choices around the world Issues covered in both volumes include vital topics such as climate change air and water pollution natural resource and species protection and agricultural industrial impacts on the environment and public health For all topics the authors scholars and experts hailing from a wide range of environmental and policy fields detail a range of political social and economic options for the future and explain why the issue in question is important for society and people as well as the natural world

Sustainable Territorial Management David Rodr'iguez-Rodr'iguez, Javier Mart'inez-Vega, 2018-09-21 This book is a printed edition of the Special Issue Sustainable Territorial Management that was published in *Environments*

Strategic Environmental Assessment in International and European Law Simon Marsden, 2012 Strategic environmental assessment SEA is a regulatory requirement for development across Europe North America Australasia and elsewhere yet understanding the legal aspects is challenging This comprehensive guide provides that understanding in a clear and straightforward way The introduction considers SEA and the law explaining what SEA is why it is needed how it works and why it is required as well as examining the role of the law Part One provides an overview of international law environmental impact assessment EIA and international law including treaties customary international law and soft law relevant to SEA It analyses the Kiev SEA Protocol and related UNECE conventions the Espoo Convention on EIA in a Transboundary Context and the Aarhus Convention on Access to Information Public Participation and Access to Justice in Environmental Matters It also analyses the role of SEA in conservation conventions Part Two considers how the European legal system works including an overview of the current status of European law It examines the EIA Directive and SEA Directive together with other relevant directives and regulations such as the Habitats and Wild Birds Directives the Water Framework Directive the Public Participation for Plans and Programmes Directive and the Structural Funds Regulations Finally the volume draws conclusions about the relationship and comparisons

between international and European law generally and in regulating SEA

World Heritage Cultural Landscapes: A Handbook for Conservation and Management gratuit,2009

Living on the Edge Susan Snyman,Kelly S. Bricker,2021-05-06

Tourism has an essential role in terms of contributing to the financial sustainability of protected areas In addition through effective and efficient benefit sharing tourism can positively impact numerous stakeholders within and beyond the protected area Living on the Edge Benefit Sharing from Protected Area Tourism highlights the complexity of benefit sharing the importance of identifying all relevant stakeholders the challenges of ensuring equity and sustainability and the critical importance of good governance The evolution of benefit sharing mechanisms over time also emphasizes a continuing need to evolve and adapt to each unique situation as much evidence indicates that little has changed for those living on the edge Although this book focuses on benefit sharing from protected area tourism it is essential to acknowledge that along with these benefits are costs associated with tourism including possible increased local prices loss of access to land human wildlife conflict and other related costs The contributing authors agree that benefit sharing must include good governance accountability equity transparency a broad reach of stakeholder engagement and a robust combination of tangible and intangible benefits with recognition that benefit sharing systems need to be adaptive and evolve as needed according to the relevant situation The chapters in this book were originally published as a special issue of the Journal of Sustainable Tourism

Conserving Biocultural

Landscapes in Malaysia and Indonesia for Sustainable Development Saiful Arif Abdullah, Amin Setyo Leksono, Sun-Kee Hong, 2022-04-01 This book presents perspective on the importance of natural and cultural relationships for conserving bio cultural landscapes It explores the approaches and concepts used to conserve bio cultural landscapes in Malaysia and Indonesia The book highlights the importance of bio cultural landscape in sustainable development framework and its link to sustainable development goals are also included It fills the gap in literature with special focus on this region The book is of interest to teachers researchers climate change scientists conservationists capacity builders and policymakers Also it serves as additional reading material for undergraduate and graduate students of ecology and environmental sciences National and international environmental scientists policy makers also find this to be a useful read **Adapting to change**
