Province Building and the Federalization of immigration in Canada Mireille Paquet, 2019-03-14 Most accounts of the provincial role in Canadian immigration focus on the experience of Quebec In *Province Building and the Federalization of Immigration in Canada* Mireille Paquet shows that between 1990 and 2010 all ten provinces became closely involved in immigrant selection and integration This considerable change to the Canadian model of immigration governance corresponds to a broader process of federalization of immigration by which both orders of government became active in the management of immigration While Canada maintains its overall positive approach to newcomers the provinces developed and continue to develop their own formal immigration strategies and implement various selections and integration policies This book argues that the process of federalization is largely the result of provincial mobilization In each province mobilization occurred through a modern iteration of province building this time focused on immigrants as resources for provincial economies and societies Advocating for a province centred analysis of federalism *Province Building and the Federalization of Immigration in Canada* provides key lessons to understanding the contemporary governance of immigration in Canada

Compassionate Migration and Regional Policy in the Americas Steven W. Bender, William F. Arrocha, 2017-04-20 This book explores the contested notion of compassionate migration in its discourse and practice In the context of today's migration patterns within the Americas compassionate migration can play a fundamental role in responding to the hardships that many migrants suffer before during and after their journeys This volume explores the boundaries of compassion from legal political philosophical and interdisciplinary perspectives and supplies examples where state and non state actors engage in practices of compassion and humanity through formal and informal regimes Despite the lack of a concise and precise definition of the concept and practice of compassionate migration

all authors in this volume agree on the pressing need for more humane and compassionate treatment for those leaving their home country behind in search of a better life

Human Rights and Judicial Review in Australia and Canada Janina Boughey, 2017-06-15 It is commonly asserted that bills of rights have had a righting effect on the principles of judicial review of administrative action and have been a key driver of the modern expansion in judicial oversight of the executive arm of government A number of commentators have pointed to Australian administrative law as evidence for this righting hypothesis They have suggested that the fact that Australia is an outlier among common law jurisdictions in having neither a statutory nor a constitutional framework to expressly protect human rights explains why Australia alone continues to take an apparently formalist legalist and conservative approach to administrative law Other commentators and judges including a number in Canada have argued the opposite that bills of rights have the effect of stifling the development of the common law However for the most part all these claims remain just that there has been limited detailed analysis of the issue and no detailed comparative analysis of the veracity of the claims This book analyses in detail the interaction between administrative and human rights law in Australia and Canada arguing that both jurisdictions have reached remarkably similar positions regarding the balance between judicial and executive power and between broader fundamental principles including the rule of law parliamentary sovereignty and the separation of powers It will provide valuable reading for all those researching judicial review and human rights

Education as Public Policy in Canada Merli Tamtik, Roopa Desai Trilokekar, Glen A. Jones, 2020-10-07 In the early twenty first century international education emerged as an almost ubiquitous concept within discussions of educational curriculum the objectives of schools universities and colleges and government policies for K 12 and higher education Although far from a

Intergovernmental Relations on Immigrant Integration in Multi-Level States Ilke Adam,Eve Hepburn,2021-07-12 This book explores how governments in multi level states coordinate immigrant integration policies It sheds light on how the decentralization of immigrant integration to substate regions can lead to conflict or cooperation and how a variety of factors may shape different approaches to migrants Immigrant integration is an increasingly important policy area for governments However in multi level states immigrant integration is rarely the responsibility of the central government Instead it is often decentralized to substate regions which may have formulated their own unique approaches The way in which migrants are included into one part of a state may therefore be radically different from the experiences of migrants in another How do multi level states deal with potentially diverging approaches This book examines how governments coordinate on immigrant integration in multi level states Four multi level states form the backbone of the analysis two of which are federal Canada and Belgium and two that are decentralized Italy and Spain We find that intergovernmental dynamics on immigrant integration are shaped by a variety of factors ranging from party politics to constitutional power struggles This analysis contributes not only to our understanding of intergovernmental relations in multi level systems it also enhances our knowledge of the myriad ways in which different regions seek to include migrants into their societies economies and political systems The chapters in this book were originally published as a special issue of Regional and Federal Studies [Russian Germans on Four Continents](#) Anna Flack,Jan Musekamp,Jannis Panagiotidis,Hans-Christian Petersen,2023-12-11 The history of Russian Germans Russlanddeutsche is one of intensive mobility across space and time Today the descendants of eighteenth century German speaking settlers in the Russian Empire live on four continents Europe Asia and North and South America In this volume authors from the fields of history sociology cultural studies and sociolinguistics analyze key issues of the history and present of this globally connected diaspora group from an interdisciplinary angle Contributions address the institutional regimes and networks that shaped and continue to shape the mobility of Russian Germans on a global scale the impact of war and violence on the history of this group during the Age of Extremes and the language shifts that accompanied their multiple global moves Its interdisciplinary and geographic diversity makes this volume a unique contribution to research on migration global diaspora transnationalism and practices of belonging By analyzing the multiple pathways of migration entanglement and belonging of people designated as Russian Germans in past and present its chapters provide fresh insight into the making and unmaking of a global diaspora **The Routledge Handbook of Comparative Rural Policy** Matteo Vittuari,John Devlin,Marco Pagani,Thomas G. Johnson,2019-10-16 This volume represents the result of almost two decades of trans Atlantic collaborative development of a policy research paradigm the International Comparative Rural Policy Studies program Over this period dozens of scientists from different disciplines but with a common interest in rural issues and policy have collaboratively studied the policies in North America Europe and other parts of the world A core

element of the book is the idea and practice of comparative research and analysis what can be learned from comparisons how and why policies vary in different contexts and what lessons might or might not be transferable across borders It provides skills for the use of comparative methods as important tools to analyze the functioning of strategies and specific policy interventions in different contexts and a holistic approach for the management of resources in rural regions It promotes innovation as a tool to valorize endogenous resources and empower local communities and offers case studies of rural policy in specific contexts The book largely adopts a territorial approach to rural policy This means the book is more interested in rural regions their people and economies and in the policies that affect them than in rural sectors and sectoral policies per se The audience of the book is by definition international and includes students attending courses in agricultural and rural policy rural and regional studies and natural resource management lecturers seeking course material and case studies to present to their students in any of the courses listed above professionals working in the field of rural policy policy makers and civil servants at different levels seeking tools to better understand rural policy both at the local and global scale and to better recognize and comprehend how to transfer best practices
