the problems which keep the criminal court system from performing its functions are inconsistency in the processing of  
criminal defendants uncertainty concerning results obtained unacceptable delays and alienation of the community In  
composing suggested improvements for the court system the Commission s first priority is to devise standards for attaining  
speed and efficiency in the pretrial and trial processes and prompt finality in appellate proceedings The second priority is the  
upgrading of defense and prosecution functions and the third priority is the assurance of a high quality in the judiciary To  
expedite pretrial procedures the prosecutor should screen all criminal cases coming before him and divert from the system  
all cases wherein further processing by the prosecutor is not appropriate Among Commission recommendations are  
elimination of all but the investigative function of the grand jury elimination of formal arraignment unification of all courts  
within each state and the upgrading of criminal court personnel     **The National Corporation Reporter** ,1905     **The**
