How to Write and Sell Simple Information for Fun and Profit Robert W. Bly, 2010-08-31 Packed with income generating ideas about creating a variety of saleable written works, this guide includes information for researching and writing effective instructional materials and calling upon a variety of publishing channels including magazines, traditional book publishers, self publishing and the Internet. The mechanics behind becoming a successful writer and information packager are presented in this resource that explores how to write and sell simple information in multiple formats, allowing writers to turn specialized knowledge into money making books and products.

Restructuring Translation Education Feng Yue, Youlan Tao, Huashu Wang, Qiliang Cui, Bin Xu, 2019-01-14 This book offers data based insights into the problems of translation education and their causes in the context of localization and globalization in the era of big data. By examining language services around the globe, illustrating applications of big data technology and their future development and describing crowdsourcing and online collaborative translations, speech to speech translation and cloud based translation, it makes readers aware of the important changes taking place in the professional translation market and consequently recognize the insufficiency of translation education and the need for it to be restructured accordingly. Furthermore, the book includes data based analyses of translation education problems such as teaching philosophy, curriculum design and faculty development of both undergraduate and postgraduate education in China. More importantly, it proposes solutions that have already been successful in experiments in a number of universities in China for other institutions of higher education to imitate in restructuring translation education. The discussion is of interest for current and future translation policy makers, translation educators, translators and learners.

Life Sciences in Transition Halldor Stefansson, 2002-08-30 These essays grew out of an effort at the EMBL to promote a new form of science communication on the social, ethical and political issues that surround rapid change in the life sciences.
