**Journey of the Pink Dolphins** Sy Montgomery, 2009-01-16 Dolphins *Journey of the Pink Dolphin* Sy Montgomery, 2001 Montgomery recounts her adventures and observations with the lyricism and penetrating insights of a poet as well as the logic and factual accuracy of a scientist Montgomery travels to the Amazon to study the elusive pink dolphin There is truth in myth Montgomery reveals and magic all around us BOOKLIST Scientists call them *Inia geoffrensis* an ancient species of toothed whale whose origin dates back about 15 million years To the local people of the Amazon pink river dolphins are botos shape shifters that in the guise of human desire can claim your soul and take you to an enchanted underwater world This book weaves ancient myth and modern science into one woman's search for these elusive creatures Over four separate journeys Sy Montgomery follows the dolphins tracing their spiritual historical and environmental past present and future She takes us to that perfect place where the Amazon melts into the forest dolphins swim among treetops and the twenty first century dissolves into the beginning of time *Journey of the Pink Dolphins* Sy Montgomery, 2009-01-16 Dolphins *Baiting the Trap* Tony Saunders, 2002 Usually where animals are mistreated it's by people who don't know much better Though few in number uniformed RSPCA inspectors are very good at dealing with that side of things But there is another kind of cruelty to animals the kind that brings delight and satisfaction to its depraved enthusiasts It is widespread often highly organised deeply secretive and just about impossible to detect in the normal way If you picture an RSPCA officer out on official duty in his little van and uniform think again Here is the secret unknown world of the secret operations undertaken by one man whose job it is to go up against the big time crooks and often violent dealers in the criminal fraternity who abuse animals to line their back pockets or worse just for kicks Tony Saunders is more likely to be found posing as a dodgy dealer in rare animals in the back streets of Cairo or covered in mud and debris after a night spent observing illegal badger digs in the British countryside than in an office He has trained with amongst others the SAS and has come to see the nastiest side of human nature counterpointed by his very real but unsentimental love of animals This book is a non fiction thriller following Tony as he creates his own role within the RSPCA and becomes increasingly embroiled in the criminal underworld that preys on animals both in the UK and abroad *Spell of the Tiger* Sy Montgomery, 2009-01-16 Tigers

**Walking with the Great Apes** Sy Montgomery, 2009-08-25 **Search for the Golden Moon Bear** Sy Montgomery, 2009-08-25 Sy Montgomery acclaimed author of *The Soul of an Octopus* and bestselling memoir *The Good Good Pig* has shared with readers her amazing encounters with intelligent octopi great apes man eating tigers and pink river dolphins but here her muse is an animal whose name and appearance evoke another world altogether Southeast Asia's golden moon bear with its luminous coat lionlike mane and Mickey Mouse ears was unknown to science until Montgomery and her colleagues got on the trail at the dawn of the new millennium *Search for the Golden Moon Bear* recounts Montgomery's quest fraught with danger and mayhem to reconstruct an evolutionary record and piece together a living

Cockroach Marion Copeland, 2004-04-04 The cockroach could not have scuttled along almost unchanged for two hundred and fifty million years some two hundred and forty nine before man evolved unless it was doing something right It would be fascinating as well as instructive to have access to the cockroach s own record of its life on earth to know its point of view on evolution and species domination over the millennia Such chronicles would perhaps radically alter our perceptions of the dinosaur s span and importance and that of our own development and significance We might learn that throughout all these aeons the dominant life form has been if not the cockroach itself then certainly the insect Attempts to chronicle the cockroach s intellectual and emotional life have been made only within the last century when a scientist titled his essay on the cockroach The Intellectual and Emotional World of the Cockroach and artists as radically different as Franz Kafka and Don Marquis created equally memorable cockroach protagonists At least since Classical Greece authors have brought cockroach characters into the foreground to speak for the weak and downtrodden the outsiders those forced to survive on the underside of dominant human cultures Cockroaches have become the subjects of songs La Cucaracha have competed in roach races and have even ended up in recipes In this accessible sympathetic and often humorous book Marion Copeland examines the natural history symbolism and cultural significance of this poorly understood and much maligned insect

Discover the Amazon Lauri Berkenkamp, 2008-12-01 From avoiding predators to navigating through the jungle without a compass this innovative guide provides kids with the vital tools one would need if lost in the Amazon Offering practical survival techniques based on real stories children will learn lessons that can be adapted to almost any outdoor situation such as making fire deciphering animal tracks and using the natural world for all to create necessary supplies Opening with an informative section on the region and its people this essential resource combines history and science in a fun and engaging way Facts and sidebars on the local creatures and plants are interspersed along with 15 activities for the home or classroom from making a fishing spear to determining how much water is needed to stay healthy     *By Monomoy Light* North T. Cairn, 2000 In this beautifully written book North T Cairn reflects on her three extended summer stays on Monomoy an island wildlife sanctuary Residing alone in an abandoned lighthouse keeper s cottage she lived simply in the wilderness studying the diverse habitats of the refuge and its creatures Cairn recalls her sojourns on Monomoy seamlessly blending memoir with

natural and social history to trace the transformations that come from encounters with nature and its inhabitants Her evocative observations of the barrier island paradise sea and sand light flora migrating birds white tailed deer gray and harbor seals echo larger transcendent issues of life in a changing world For Cairn the outer world of nature also becomes a metaphor for the inner world of reflection new discoveries and healing particularly of her own childhood trauma and long estrangement from family By Monomoy Light will reawaken the reader to the necessities of rest and peace of space apart for meditative listening and quiet of the imperative to preserve the character of the wilderness wherever it may be found

*Dolphin* Alan Rauch,2013-08-15 From Flipper to SeaWorld dolphins have long captured our hearts We love these friendly intelligent mammals and they seem to return our feelings they enjoy interacting with swimmers and have been known to encircle people under attack by sharks Despite our familiarity with dolphins though we remain ill informed about how they evolved how they function and how they have interacted with humans for millennia Dolphin dives into the dolphin s zoology as well as its social and cultural history to offer a comprehensive view of these delightful creatures Drawing on his years of experience working with and studying dolphins Alan Rauch explores their propensity to live in pods and their ability to communicate through a variety of clicks whistles and other vocalizations He examines their long relationship with humans describing how they became the emblem of safe travel and charity that the ancient Greeks featured them on coins and that Hindu mythology associated them with Ganga a river deity As the rise in popularity of dolphinarium during the 1960s allowed the public access to dolphins they became central characters in films like *The Day of the Dolphin* and *Johnny Mnemonic* and outsmarted humans in *The Hitchhiker s Guide to the Galaxy* Packed with images and thoughtful insights *Dolphin* is a revealing look at one of our favorite sea creatures **Moon Ecuador & the Galápagos Islands** Ben Westwood,2015-03-03
