A Sociology of Religious Freedom Olga Breskaya, Giuseppe Giordan, James T. Richardson, 2024-09-27 In recent years the relevance of religious freedom has spread well beyond academia becoming a reference point for international relations multi level policy development as well as interfaith negotiations Meanwhile scholarship on religious

freedom has flourished on the boundaries of sociology law comparative politics history and theology This book presents a systematic sociological analysis of religious freedom bringing together classical sociological theories and empirical perspectives developed during the last three decades It addresses three major questions involved in any sociology of religious freedom First considering its complex and controversial nature how can religious freedom be defined Second what are the recurrent sociological conditions and relevant social perceptions that will foster an understanding of religious freedom in varying political legal and socioreligious contexts And third what are the mechanisms of social implementation of religious freedom that contribute to making it a fundamental value in a society Olga Breskaya Giuseppe Giordan and James T Richardson suggest that a sociological definition of religious freedom requires us to take into account historical philosophical legal religious and political considerations of a given society and that the social dimensions of religious freedom are as important as the legal ones

The Credibility of Sovereignty - The Political Fiction of a Concept Elia R.G. Pusterla, 2015-12-19 The book deeply analyses the bilateral relations between Switzerland and the European Union and their effect on the former's sovereignty in the context of Europeanisation This touches on philosophical debates on the complexity of sovereignty What sovereignty is at stake when talking about Swiss EU relations This issue not only faces the elusiveness of sovereignty as a concept but also the proliferation of hypocrisy on its presence within states The book encounters the deconstructionist hypothesis stating that there is nothing to worry about but the belief there is something to worry about Derrida's deconstruction of sovereignty allows indeed one to grasp the fictional essence of sovereignty based on the metaphysics of presence The presence of self positing sovereign ipseity is fictional since absent in the present but spectrally present in the belief of its presence to come Sovereignty is a matter of credibility or the credible promise of a normative statement to come Hence the book challenges the realist neorealist argument stating that states are

credibly sovereign until proven otherwise and explains that the debate on state sovereignty calls for the unveiling of this hypocritical epistemology cunningly disguised as an objective presence Swiss EU relations thus become the cornerstone to not only theorise but also test sovereignty and deconstruct the two ontological and epistemological sides of the same coin or the modern hypocrisy of sovereignty This deconstruction constitutes the very problematique of any attempt to understand whether and how a state can be sovereign and solve the problem as to how to neutralise the difference and identify the difference between credible and incredible claims of sovereignty This problematique connects the theory and practice of sovereignty innovatively providing positivist evidence on the arguable credibility of the Swiss claim of sovereignty and confirming the presence of a theological dimension within politics

It proposes a revised presence centred counselling approach which may serve as a perspective that helps us to see things in more depth as we shuttle back and forth between the two frames This book thus negotiates a revised presence centred form of counselling that is theologically grounded social scientifically informed and cross culturally sensitive As the author s counselling practice proceeds mainly in societies where Chinese is the majority the cross cultural examinations and proposals offered in this book have been bred in a space where Chinese culture meets the Christian Protestantism in particular West This book is an outgrowth of the author s experience teaching Christian counselling courses for 17 years and his 30 year clinical practice experience in places where East meets West namely Hong Kong and South China Guangdong Province
