Kenya,2011 Kenya National Assembly Official Record (Hansard) ,2001-07-25 The official records of the proceedings of the Legislative Council of the Colony and Protectorate of Kenya the House of Representatives of the Government of Kenya and the National Assembly of the Republic of Kenya *Revisiting Technical and Vocational Education in Sub-Saharan Africa* David Atchoarena,André Delluc,Adrienne Bird,International Institute for Educational Planning,2002 Differences in historical political cultural and economic contexts in sub Saharan Africa SSA account for wide variations in structures operating conditions and outcomes in technical and vocational education TVE This diversity is associated with glaring disparities so in examining policy trends and the reconstruction of training systems particular attention is focused on innovations in an effort to identify promising initiatives likely to contribute to the establishment of consistent TVE systems closely linked with the world of work and involving labor market stakeholders Some common emerging trends in TVE include the following 1 a shift in the policy focus from inputs to outputs 2 the use of new financing and certification mechanisms 3 the involvement of social partners in governance greater autonomy for institutions 4 the promotion of private providers and company based training and 5 an increasing interest in the informal sector and skills development for poverty reduction Issues addressed include these 1 an overview of TVE systems in 10 SSA countries 2 reviewing various models currently in place 3 documenting relationships between African TVE systems and policies and donor intervention and traditions in TVE 4 identifying reasons why certain reforms are facing implementation difficulties analyzing specific innovations 5 drawing lessons on the implementation of the reform agenda and its impact on TVE systems and 6 discussing possible directions for future donor support Includes 167 references MO **Kenya National Assembly Official Record (Hansard)** ,2001-07-24 The official records of the proceedings of the Legislative Council of the Colony and Protectorate of Kenya the House of Representatives of the Government of Kenya and the National Assembly of the Republic of Kenya The Burden of Educational Exclusion ,2010-01-01 School was nothing but a taboo for me concludes Johannah a young South African after recounting her life story Johannah is one of the early school leavers who features in this book Figures on participation in education in Africa show that despite government agreements and policies developed under the banner of Education for All this remains a remote goal In several countries programmes on Universal Primary Education have improved access to education but do those who enter school remain there until they have reached a suitable level Do they acquire enough competences at primary and secondary school to survive the tough daily life in sub Saharan countries What happens to children and young adults who leave school early What measures can be taken to prevent them from doing so This book is based on research carried out in Eastern and Southern Africa by scholars from Africa and the Netherlands who cooperated within the framework of the ESLA project The contributions to this book reflect the exchanges and discussions which took place in this research group initiated by staff of

Mzumbe University in Tanzania Uganda Martyrs University and the University of Groningen in the Netherlands The group aims to go beyond figures and uncover the causes effects and stories of the young people involved as well as explore promising new strategies with which to address their needs As early school leaving is not exclusively an African problem a contribution on the Dutch situation is also included The book concludes that exclusion from education has far reaching effects not only for the young people involved but also for the society in which they live The burden of educational exclusion should be the joint responsibility of developing and developed countries The authors hope the book will contribute not only to a greater understanding of the phenomenon of early school leaving but also challenge it in terms of developing policies and programmes that can prevent educational exclusion and support those who already find themselves in such a situation

Prospects for Schistosomiasis Elimination Robert Bergquist, Darren Gray, 2019-09-03 Current efforts to limit the ravages of schistosomiasis are pushing the world closer to eliminating a chronic infection that has been associated with human life in the tropics since time immemorial This notwithstanding the disease remains a scourge for large populations in sub Saharan Africa Latin America and Southeast Asia and the main part of this book is made up by papers dealing with its current distribution discussing ways and means to establish and implement improved control approaches While chemotherapy limits the symptoms caused by schistosomiasis the number of infected people will not decrease until the parasite s life cycle is interrupted To that end some papers focus on the intermediate snail host which is notoriously difficult to control while others discuss human hygiene and sanitation The latter approach not only prevents infection through avoiding people being infected from the snail but more importantly also stops people infecting the snail by leaving contagious feces and urine in nature With morbidity reduced by chemotherapy the immediate target now is the interruption of transmission to be achieved by new tools such as the novel chemotherapies improved diagnostics for humans animals and snails and vaccines discussed in several of the papers As made clear in this book a complex infection requires new tools as well as work on many fronts above all however a clear idea is needed as to how to skillfully combine the tools available and sustain implemented control activities
