The Villa James S. Ackerman, 2023-08-15 In *The Villa* James Ackerman explores villa building in the West from ancient Rome to twentieth century France and America In this wide ranging book he illuminates such topics as the early villas of the Medici the rise of the country place as a focus for examining the relationships between urban and rural life between architectural design and social cultural economic and political forces Book cover [Gardens of the Gods](#) Christopher McIntosh, 2004-10-29 *Gardens of the Gods* reveals the symbolic language of garden design exploring the gardens of China with their moon gates and immortal rocks the Zen gardens of Japan the paradise gardens of Islam those of Renaissance Italy with their richly mythological imagery the landscaped parks of England the gardens of New Harmony in the US and some striking modern examples of symbolic gardens including the Tarot Garden of the sculptress Niki de Saint Phalle in Italy This illustrated book also includes a chapter with suggestions for creating a garden of meaning and a selected catalogue of plants with symbolic or mythological associations Based on ten years of research travel and curiosity this text is also the result of a personal quest to reveal the mystical codes written in the astonishing worlds of gardens worldwide [The Afterlife of Gardens](#) John Dixon Hunt, 2013-12-15 Most books on the history of gardens describe the way that gardens have been created by contrast *The Afterlife of Gardens* examines the way that gardens have been experienced Using examples from many sites around the world John Dixon Hunt examines responses to gardens from Renaissance sites to Baroque creations to modern motorway landscaping Examining how a garden has been experienced extends its history beyond the physical into cultural terms and the author describes how this afterlife of gardens as they are understood and experienced by many generations is often redesigned in visitors imaginative and cultural responses The author looks at many aspects of the subject including the enigmatic Hypnerotomachia Polifili of 1499 part fictional narrative and part scholarly treatise this fascinating early narrative of garden reception paves the way for an exploration of subsequent landscapes and their reception in later periods He also looks at Italian Renaissance gardens the Picturesque the architectural and inscriptional elements of gardens the ways experiences of gardens have been recorded and the different kinds of movement within gardens from the strolling pedestrian to the motorway traveller who experiences landscapes at speed In this ambitious new book the author shows how the complete history of a garden must extend beyond the moment of its design and the aims of the designer to record its subsequent reception He raises questions about the preservation of historical sites and provides lessons for the contemporary designer who may perhaps be more attentive to the life of a work after its design and implementation This book will interest all who have a professional interest in gardens as well as the wide general audience for gardens and landscapes of past and present [Alexander Pope](#) Mavis Batey, 1999 This work provides a look at Pope's relationship with the leading garden makers of his time Forever planning and plotting for his own grotto and for his modest five acres in Twickenham his ideas were also sought at many of the great estates His importance to Lord Burlington at Chiswick Henrietta

Howard at Marble Hill and above all to William Kent the great designer is made abundantly clear The author sets out to throw new light on her subject and show why Pope has been and remains so crucial to our landscape

Memory's Daughters Susan Stabile, 2018-09-05 A renowned literary coterie in eighteenth century Philadelphia Elizabeth Fergusson Hannah Griffitts Deborah Logan Annis Stockton and Susanna Wright wrote and exchanged thousands of poems and maintained elaborate handwritten commonplace books of memorabilia Through their creativity and celebrated hospitality they initiated a salon culture in their great country houses in the Delaware Valley In this stunningly original and heavily illustrated book Susan M Stabile shows that these female writers sought to memorialize their lives and aesthetic experience a purpose that stands in marked contrast to the civic concerns of male authors in the republican era Drawing equally on material culture and literary history Stabile discusses how the group used their writings to explore and at times replicate the arrangement of their material possessions including desks writing paraphernalia mirrors miniatures beds and coffins As she reconstructs the poetics of memory that informed the women's lives and structured their manuscripts Stabile focuses on vernacular architecture penmanship souvenir collecting and mourning Empirically rich and nuanced in its readings of different kinds of artifacts this engaging work tells of the erasure of the women's lives from the national memory as the feminine aesthetic of scribal publication was overshadowed by the proliferating print culture of late eighteenth century America
