Translating in Linguistically Diverse Societies Gabriel González Núñez, 2016-09-09 This work is the first book length treatment on translation policy Nearly everywhere in the world populations are multilingual and mobile consequently language policies developed by the authorities must include choices about the use or non use of translation This book recognizes that these choices or the absence thereof become policies of their own in terms of translation It builds upon the work of scholars in the fields of translation studies and language planning and policy in order to develop a new theoretical perspective on translation policy In essence the book proposes that translation policy can be understood as the management practice and beliefs surrounding the use of translation The book deals with these issues under European and international law and then explores such management practice and beliefs in the UK as a case study Ultimately the reader can find a fuller appreciation of both the importance and complexity of translation policy

Interventions in Career Design and Education Valérie Cohen-Scali, Jacques Pouyaud, Marek Podgórný, Violetta Drabik-Podgórna, Gabriela Aisenson, Jean Luc Bernaud, Issa Abdou Moumoula, Jean Guichard, 2018-11-29 This book is the product of a series of reflections by career counseling and guidance specialists on a question central to society How can career and life design interventions contribute to fair and sustainable development and to the implementation of decent work all over the world This question was formulated by Professor J Guichard the director of the UNESCO Chair in Lifelong Guidance and counseling at the University of Wroclaw Poland The researchers involved in this Chair s activities proposed answers which form the chapters of this book These reflections emphasize the need to focus on the study and implementation of certain central psychological processes which can enable individuals to face the main challenges of our society The contributions also propose new avenues of intervention for career counseling and guidance The entire book is the bedrock of a program of research and interventions to be implemented in order that the field of career counseling and guidance plays a key role for individuals who must design their lives in a rapidly changing and ever more complex context This book is therefore a major scientific contribution and marks a turning point for researchers and practitioners in career counseling and guidance and for all professionals who support the self construction of individuals in the 21st century The authors draw on a diverse range of disciplines and research traditions and offer readers a rich array of insights helping them reflect on how career guidance can be mobilised to serve citizens in a world that is increasingly challenged by complex seemingly intractable problems A central crosscutting concern is the ways in which career guidance can foster well being by facilitating access to meaningful and fulfilling work in contexts that promote equity social justice and dignity for all While engaging the micro worlds of individuals and throwing light on their valiant efforts to design a life that realises their hopes and aspirations it is a commendable feature of many of these papers that they do not eschew the societal indeed planetary stage across which personal dramas are enacted Prof Ronald G Sultana Director Euro Mediterranean Centre for Educational Research University of Malta The primary strengths are the authors capacity to provide forward thinking perspectives on the important issue of sustainable lifelong interventions and career

design in its broadest sense The volume offers depth in a way of thinking that is pertinent to the 21st century and provokes both an interest in the further study of this domain as well as providing tools and references for novice and experienced researchers and professionals The book is sure to become a major text in the field Prof Maurice Taylor Faculty of Education University of Ottawa Canada *Athenaeum and Literary Chronicle* ,1866 [The Performative State](#) Iza Yue Ding,2022-09-15 What does the state do when public expectations exceed its governing capacity The Performative State shows how the state can shape public perceptions and defuse crises through the theatrical deployment of language symbols and gestures of good governance performative governance Iza Ding unpacks the black box of street level bureaucracy in China through ethnographic participation in depth interviews and public opinion surveys She demonstrates in vivid detail how China's environmental bureaucrats deal with intense public scrutiny over pollution when they lack the authority to actually improve the physical environment They assuage public outrage by appearing responsive benevolent and humble But performative governance is hard work Environmental bureaucrats paradoxically work themselves to exhaustion even when they cannot effectively implement environmental policies Instead of achieving performance legitimacy by delivering material improvements the state can shape public opinion through the theatrical performance of goodwill and sincere effort The Performative State also explains when performative governance fails at impressing its audience and when governance becomes less performative and more substantive Ding focuses on Chinese evidence but her theory travels comparisons with Vietnam and the United States show that all states democratic and authoritarian alike engage in performative governance

Mere Bagatelles: Women's Diaries from Ireland, 1760-1810 Amy Prendergast,2024-09-13 Honorable Mention in the ACIS Robert Rhodes Prize for Books on Literature 2024 An Open Access edition of this book will be available on publication on the Liverpool University Press website and the OAPEN library Engaging with previously overlooked diaries by women in Ireland written between 1760 and 1810 this book opens new avenues concerning authorship and female agency transforming our understanding of women's contributions to both literature and culture The result of extensive archival research across multiple international archives this book presents an entirely new corpus that demonstrates the creativity and literary capabilities of women in this period The surviving diaries showcase these women's engagement with a form that allowed them to explore their subjectivity and to experiment with the presentation of self This book demonstrates how these bagatelles should be treated as literary works that were shaped by and in turn influenced wider cultures of reading and writing underlining the generic fluidity at play The diary form forces a dismantling of the neat binaries of public and private of imaginative and non imaginative prose writing complicating our understandings of each The content of these diaries prompts a re evaluation of the very contours of Irish writing and what we consider as literature while allowing us to rediscover the importance of manuscripts to our explorations of literary culture
