Globalization and Labour in the Twenty-First Century Verity Burgmann, 2016-04-14 The Open Access version of this book available at <http://www.tandfebooks.com> has been made

available under a Creative Commons Attribution Non Commercial No Derivatives 3.0 license Globalization has adversely affected working class organization and mobilization increasing inequality by redistribution upwards from labour to capital However workers around the world are challenging their increased exploitation by globalizing corporations In developed countries many unions are transforming themselves to confront employer power in ways more appropriate to contemporary circumstances in developing countries militant new labour movements are emerging Drawing upon insights in anti determinist Marxian perspectives Verity Burgmann shows how working class resistance is not futile as protagonists of globalization often claim She identifies eight characteristics of globalization harmful to workers and describes and analyses how they have responded collectively to these problems since 1990 and especially this century With case studies from around the world including Greece since 2008 she pays particular attention to new types of labour movement organization and mobilization that are not simply defensive reactions but are offensive and innovative responses that compel corporations or political institutions to change Aging and less agile manifestations of the labour movement decline while new expressions of working class organization and mobilization arise to better battle with corporate globalization This book will be of interest to students and scholars of labour studies globalization political economy Marxism and sociology of work

Approaches to Offender Rehabilitation in Asian Jurisdictions Chi Meng Chu, Michael Daffern, 2024-04-04 This book aims to understand how Asian jurisdictions conceptualise rehabilitation within both the correctional and forensic mental health sectors Little has been written about rehabilitation practices for people in criminal justice and forensic mental health services in Asia Although there is some recognition of the need to develop and or adjust rehabilitation practices for non white non western peoples in Western jurisdictions the extent to which Western derived practices have been considered adjusted or adopted in Asian countries is not well known This book includes contributions from an international team who explore the ways in which history culture religion and resources impact how rehabilitation is conceptualised and offered in multiple Asian countries It aims to provide an understanding of the relative merits of contemporary Western practices across different Asian countries and consider how these practices have been adopted and adapted within correctional and forensic mental health sectors This book is essential for administrators who are developing rehabilitation strategies and for practitioners working with people who have a history of offending behaviour

Englishness Ailsa Henderson, Richard Wyn Jones, 2021-03-04 Until the Brexit referendum there was widespread doubt as to whether English nationalism existed at all at least beyond a small fringe Since then it has come to be regarded an obvious explanation for the vote to Leave the European Union Subsequent opinion polls have raised doubts about the extent of continuing English commitment to the Union of the United Kingdom itself Yet even as Englishness is apparently reshaping Britain's place in world and perhaps ultimately the state itself it remains poorly understood In this book Ailsa Henderson and Richard Wyn Jones draw on data from the Future of England Survey a specially commissioned public attitudes survey programme exploring the political implications of English identity to make new and

original arguments about the nature of English nationalism They demonstrate that English nationalism is emphatically not a rejection of Britain and Britishness Rather English nationalism combines a sense of grievance about England s place within the United Kingdom with a fierce commitment to a particular vision of Britain s past present and future Understanding its Janus faced nature both England and Britain is key not only to understanding English nationalism but also to understanding the ways in which it is transforming British politics

Economic and Environmental Regulation of International Aviation
Steven Truxal,2016-12-01 The core structure of the regulatory regime for international civil aviation the Chicago System is inter national The features of the Chicago System were designed in an era when the world s airlines were State owned and the most pressing international concerns were for navigation and safety regulation Economic liberalization and intense globalization since the Second World War have impacted on the industry today it is global This book observes the developing governance of global aviation taking into account the concepts of sovereignty jurisdiction and territoriality and the proliferation of actors and participants as partners in a global public policy network to posit that an upgraded system of global governance for civil aviation helps to explain the emerging complex landscape for global governance of civil aviation As evidence of the emerging complex matrix of governance of global aviation this book identifies and reviews a selection of contemporary transnational economic and environmental challenges facing the globalized aviation sector e g fair competition safeguards consumer protection noise pollution and greenhouse gas emissions and the respective legal and policy actions taken at national level United Arab Emirates Qatar and People s Republic of China regional level the European Union and international level UN Framework Convention on Climate Change and International Civil Aviation Organization The book concludes that economic and environmental regulation of international aviation designed for an inter national world of yesterday evolves into global governance of aviation which is more suited for today s global world This book will be of particular interest to scholars and practitioners of aviation law competition law and environmental law as well as in the areas of transnational law global governance and international relations

Stanley,2018-07-11 This hands on approach to teaching digital research skills breaks down each research skill into simple targeted steps that enable students to research more deeply and to accomplish real world tasks Today s rapidly diversifying digital world provides easy access to information making it increasingly important that students know how to conduct research online In this book you ll learn how to transition your instruction of the research process from a print context to a digital one and to expand your own knowledge of how to best assist students at all stages of their research Using six well defined steps that she developed in her 26 years of experience as a school librarian Deb Stanley provides practical strategies for each of the six steps of the research process accompanied by easily used and replicated lessons and handouts that are applicable and adaptable to all grade levels K 12 Step by step instruction links to Common Core state standards and ideas to help students succeed at each stage of the research process makes this title a must have for any school librarian **Race Rights Reparations** Fernne Brennan,2017-07-14 This book considers institutional racism as a problem that exists within modern societies Its roots lie with the transatlantic slave trade and slavery and the solution involves ridding society of the problem It is argued here that first there needs to be an acceptance of its existence then developing the tools needed to deal with it and finally to implement those tools so that institutional racism can be permanently removed from society The book has four themes the first considers the nature of institutional racism the second theme looks at instances of institutional racism through matters such as deaths in custody and skin lightening the third considers the concept of reparations and the final area looks at the development of social movements as a way of pushing institutional racism up the political agenda The development of a social movement is part of a social discourse which would for example push mentoring as a form of reparations There is a

need for more research on the manifestations of institutional racism and this book is part of that discourse It is argued that the legacy of the slave trade and slavery is continuing and contemporary through the presence of institutional racism in society This problem has not been addressed through legislation and policies devised to combat racial discrimination Institutional racism needs to be understood as being located in the processes and procedures of societal institutions

Everyone Loses Samuel Charap, Timothy J. Colton, 2018-10-09 Disorder erupted in Ukraine in 2014 involving the overthrow of a sitting government the Russian annexation of the Crimean peninsula and a violent insurrection supported by Moscow in the east of the country This Adelphi book argues that the crisis has yielded a ruinous outcome in which all the parties are worse off and international security has deteriorated This negative sum scenario resulted from years of zero sum behaviour on the part of Russia and the West in post Soviet Eurasia which the authors rigorously analyse The rivalry was manageable in the early period after the Cold War only to become entrenched and bitter a decade later The upshot has been systematic losses for Russia the West and the countries caught in between All the governments involved must recognise that long standing policies aimed at achieving one sided advantage have reached a dead end Charap and Colton argue and commit to finding mutually acceptable alternatives through patient negotiation

Sutter,2018-07-12 Now in a fully updated edition this cogent but comprehensive book examines the international relations of the People s Republic of China since its founding in 1949 Noted scholar Robert G Sutter provides a balanced assessment of the country s recent successes and advances as well as the important legacies and constraints that hamper it especially in nearby Asia long the focus of China s foreign policy attention Sutter demonstrates how Beijing has carefully created an image of a China that follows consistent policies based on morally correct principles but its record shows repeated episodes of sometime surprising change and frequent use of violence intimidation and coercion China s leaders he argues still fail to manage the desire for productive foreign relations with their aspirations to build Chinese security and sovereignty interests Image building efforts condition Chinese public and elite opinion to be extraordinarily sensitive self righteous and often alarmist in dealing with the many disputes China has with its Asian neighbors and the United States Advances that the PRC

has made in other parts of the world focus mainly on commercial interests limiting its actual impact on world affairs Sutter shows readers how to use China's rise in nearby Asia as a reliable barometer of how important and effective the country will actually become internationally
