Dangerous Allies Malcolm Fraser,Cain Roberts,2016-04-12 Australia has always been reliant on great and powerful friends for its sense of national security and for direction on its foreign policy first on the British Empire and now on the United States Australia has actively pursued a policy of strategic dependence believing that making a grand bargain with a powerful ally was the best policy to ensure its security and prosperity Dangerous Allies examines Australia s history of strategic dependence and questions the continuation of this position It argues that international circumstances in the world and in the Western Pacific especially now make such a policy highly questionable Since the fall of the Soviet Union the United States has also changed dramatically making it less relevant to Australia and a less appropriate ally on which Australia should rely Malcolm Fraser argues that Australia should adopt a much greater degree of independence in foreign policy and that we should no longer merely follow other nations into wars of no direct interest to Australia or Australia s security He argues for an end to strategic dependence and for the timely establishment of a truly independent Australia

International Perspectives on the Regulation of Lawyers and Legal Services Andrew Boon, 2017-11-30. This collection explores developments in the regulation of legal services by examining the control of the markets in several key countries and in jurisdictions within countries. The contributions consider emerging adjustments in regulatory structures and methods, examine the continuing role of any of professionals and how this may be changing and speculate on the future of legal services regulation in each jurisdiction. The introductory and concluding chapters draw together similarities, differences and conclusions regarding directions of change in the regulation of legal services. They consider the emergence of alternatives to professionalism as a means of regulating legal services and some implications for the rule of law.

India-China Relations Jagannath P. Panda, 2016-10-04. The rise of India and China as two major economic and political actors in both regional and global politics necessitates an analysis of not only their bilateral ties but also the significance of their regional and global pursuits. This book looks at the nuances and politics that the two countries attach to multilateral institutions and examines how they receive, react to and approach each other's presence and upsurge. The driving theme of this book is to highlight the enduring and emerging complexities in India-China relations which are multi-layered and polygonal in nature and both a result and reflection of a multipolar world order. The book argues that coexistence between India and China in this multipolar world order is possible but that it is limited to a medium-term perspective given the constraints of identity complexities and global aspirations. These two rising powers are pursuing. It goes on to discuss how their search for energy resources, quest to uphold their own identity as developing powers and engagement in balance of power politics to exert authority on each other's presence are some elements that guide their non-cooperative relationship. By explaining the foreign policy approaches of Asia's two major powers towards the growing Asian and global multilateralism and highlighting the policies they carry towards each other, the book is a useful contribution to students and scholars of Asian Politics, Foreign Policy and International Relations.
