**Cloud Computing for Optimization: Foundations, Applications, and Challenges** Bhabani Shankar Prasad Mishra, Himansu Das, Satchidananda Dehuri, Alok Kumar Jagadev, 2018-02-26 This book discusses harnessing the real power of cloud computing in optimization problems, presenting state-of-the-art computing paradigms, advances in applications and challenges concerning both the theories and applications of cloud computing in optimization with a focus on diverse fields like the Internet of Things, fog-assisted cloud computing and big data. In real life, many problems ranging from social science to engineering sciences can be identified as complex optimization problems. Very often these are intractable and as a result researchers from industry as well as the academic community are concentrating their efforts on developing methods of addressing them. Further, the cloud computing paradigm plays a vital role in many areas of interest like resource allocation, scheduling, energy management, virtualization and security and these areas are intertwined with many optimization problems. Using illustrations and figures, this book offers students and researchers a clear overview of the concepts and practices of cloud computing and its use in numerous complex optimization problems.

**Faculty Development for Teaching Engineering** Rajnish Prakash, T.V. Prasad, 2012-06-07 There are numerous challenges in India in handling the higher education system. The most compelling challenge is the shortage of effective teachers. This book covers almost all aspects required for bringing out 21st century engineers' values, multi-disciplinary knowledge, working in a group, working in international scenarios, knowledge of project management, good written and communication skills and many such characteristics are required by engineers for successfully performing in their professions. The advent of information technology tools in all spheres of life is another dimension to the essential characteristics. The book will motivate and inspire the readers to take advantage of new emerging technologies and use the same in their projects or research. This book discusses methods and techniques for becoming an effective technical teacher since just teaching is not sufficient in view of the global trends. The book will particularly be useful for conducting faculty development and faculty induction programmes.
