Naushaad Kabir, Mahmud Hasan Khan, 2020-12-17 This Handbook is a comprehensive overview of English language education in Bangladesh Presenting descriptive theoretical and empirical chapters as well as case studies this Handbook on the one hand provides a comprehensive view of the English language teaching and learning scenario in Bangladesh and on the other hand comes up with suggestions for possible decolonisation and de eliticisation of English in Bangladesh The

Handbook explores a wide range of diverse endogenous and exogenous topics all related to English language teaching and learning in Bangladesh and acquaints readers with different perspectives operating from the macro to the micro levels. The theoretical frameworks used are drawn from applied linguistics, education, sociology, political science, critical geography, cultural studies, psychology, and economics. The chapters examine how much generalisability the theories have for the context of Bangladesh and how the empirical data can be interpreted through different theoretical lenses. There are six sections in the Handbook covering different dynamics of English language education practices in Bangladesh: from history, policy, and practice to assessment, pedagogy, and identity. It is an invaluable reference source for students, researchers, and policy makers interested in English language, ELT, TESOL, and applied linguistics.

Play and Playwork Fraser Brown, Mike

Wragg, 2019-07-09 Bringing together authors from a range of academic disciplines and research backgrounds united as standard bearers for the child's right to play and set against a backdrop evoking play's critical essence, this book documents the rise and fall of an explosive period of political interest in play in the UK. Has the withdrawal of so much state funding damaged the playwork profession forever? Has the battle for recognition of the significance of play in child development been lost? Why is children's happiness always so low on the agendas of our politicians? The invaluable contributions in this book identify the lessons learned and the opportunities that may be available to those determined to maintain the struggle for a greater recognition of the importance of children's play in an era defined by the oppressive politics of austerity. This book was originally published as a special issue of the International Journal of Play.

Along with this insightful analysis, Dr Awawdeh introduces a long-term vision that can improve the system for all involved, resulting in the progression of student success and higher ranking worldwide. Individuals looking for in-depth research in the area of the Australian education system will find her book a valuable resource in their quest to solve the problems today's students face.

Political

Rationale and International Consequences of the War in Libya Dag Henriksen, Ann Karin Larssen, 2016-04-14 *Political Rationale and International Consequences of the War in Libya* focuses on the international intervention in Libya in 2011 and tries to answer two broad questions: 1. What was the political rationale for the various actors to proceed as they did in the lead-up and conduct of the military intervention in Libya? 2. What are the consequences of the UN-authorized military intervention in Libya? R2P was the public raison d'être of the war and an important legitimizing factor of the intervention. Still, the humanitarian situation was a necessary but not in and by itself an adequate precondition for intervention. A number of factors coalesced to enable the intervention. While the humanitarian situation triggered the intervention, in reality, a variety of

national interests governed the approach by the various international actors and more often than not these motives were not rooted in the particular circumstances in Libya The book offers a combination of unique perspectives While the perspectives of the US France and the UK on the Libyan Crisis War have been well documented the Arabic and Scandinavian political and military dynamics have been much less so While the perspectives of NATO the UN and R2P have been debated the view from the Arab League and African Union AU have been less in focus The volume redresses that imbalance and offers the most broad ranging analysis yet of a key moment in recent international relations
