Identity and Dialect Performance Reem Bassiouney, 2017-10-24 Identity and Dialect Performance discusses the relationship between identity and dialects It starts from the assumption that the use of dialect is not just a product of social and demographic factors but can also be an intentional performance of identity Dialect performance is related to identity construction and in a highly globalised world the linguistic repertoire has increased rapidly thereby changing our conventional assumptions about dialects and their usage The key outstanding feature of this particular book is that it spans an extensive range of communities and dialects Italy Hong Kong Morocco Egypt Syria Japan Germany The Sudan The Netherlands Nigeria Spain US UK French Guiana Colombia and Libya *ECKM2014-Proceedings of the 15th European conference on Knowledge Management* Carla Vivas, 2014-10-01 The world economy in which we are living poses challenges that lead to a realization that more of the same will be difficult to sustain This provides an illustration that in order to create new or modified knowledge practices strengthen customer relationships and thus positively influence customer satisfaction organizations must be flexible in configuring combining knowledge and knowledge structures in a way that is appropriate for delivering value to the customer It must simultaneously develop effective strategies for updating the knowledge of its staff members necessary for underpinning the creation and delivery of appropriate knowledge services Thus unlearning forgetting becomes a critical means for organizational success The ECKM community of scholars has already initiated dialogue that links its particular strengths to innovation issues This conference aims to further that dialogue by attracting leading edge work that leverages the ECKM community's in depth understanding of learning and unlearning to better understand knowledge management Our aim is to stimulate breakthrough research streams linking learning

unlearning and knowledge management How can organizations tailor use and extend techniques and tools from knowledge management for improving their business practices and processes Building upon existing work on knowledge management KM and organizational learning the conference will promote interdisciplinary approaches from computer science and information systems business management and organization science as well as cognitive science Emphasis will be put on systematic learning from experience KM tools and KM success factors A special interest belongs to knowledge management initiatives which are lightweight i e do not place considerable additional burden on users and KM experts allow an incremental adoption i e do not require large up front investment before any return of investment is at least visible and are flexible regarding frequent changes in experts and topics Continuing the success of the ECKM conference series since 2000 the 2015 conference will provide an international communication forum bringing together academia and industry for discussing the progress made and addressing the challenges faced by continuous learning in knowledge intensive organizations

The Contract of Carriage Paula Bäckdén, 2019-01-28

The Contract of Carriage Multimodal Transport and Unimodal Regulation provides a new perspective on how to approach the question of multimodal transport regulation regarding liability for goods carried Unlike previous literature which has approached the issue of applicability from a strict interpretation of the convention angle this book will analyse the issue from a law of contracts perspective If goods are damaged during international transport the carrier's liability is governed by rules laid down in international conventions such as the CMR convention the Hague Visby Rules and the Montreal Convention Such rules apply to certain modes of transport to contracts for unimodal carriage When goods are carried under a multimodal contract of carriage which provides for carriage by more than one mode of transport the question is whether these rules are applicable to transport under multimodal contracts of carriage This book investigates the rules of carrier's liability applicable to unimodal transport and whether these rules are applicable to carriage under multimodal contracts of carriage with focus on the actual contract

of carriage This unique text will be of great interest to students academics industry professionals and legal practitioners alike

Featural Relations in the Brain: Theoretical and Experimental Perspectives on Grammatical Agreement, 2nd Edition Simona Mancini, Sendy Caffarra, Andrew Nevins, Successful speaking and understanding hinges on the almost effortless capacity of speakers to decode and build dependencies among words in a sentence based on covariance in some specific features Whenever two features covary an agreement relation is established Agreement is a widespread and varied phenomenon its pervasiveness in some languages contrasts with its near absence in others which poses a challenge for linguists and psycholinguists that attempt to explain the mechanics of its representation processing and acquisition Agreement has been extensively investigated from a theoretical perspective but also from the point of view of psycholinguistics and the cognitive neuroscience of language Theoretical linguistics has provided an articulated system of structural representations and computations on which the establishment of agreement relations hinges while psycholinguistics and cognitive neuroscience have aimed at unveiling the algorithms that underlie the use of these computations and their behavioral and neuro physiological bases The goal of this Research Topic is to draw together multiple and interdisciplinary work to highlight the state of the art in the study of agreement and propose new perspectives on this research topic Publisher's note In this 2nd edition the following article was added Mancini S Caffarra S and Nevins A 2021 Editorial Featural Relations in the Brain Theoretical and Experimental Perspectives on Grammatical Agreement Front Psychol 12 754430 doi 10 3389/fpsyg 2021 754430 *Journalism and Journalism Education in Developing Countries* Beatrice Dernbach, Beate Illg, 2020-02-17 Free and fair media are at the heart of any democratic set up A thriving field of journalism and zealous and ethical journalists in that sense become torch bearers of a brighter and promising tomorrow In this light the status of journalists the most important actors in the field becomes increasingly important as a matter of study They act as gatekeepers of information that is flooding in the era of new media a wave that is not so new anymore Their roles remain intact and even becomes prominent in the chaos of many to many communication Not concentrating on specific countries selected contributions in the book reflect on the developments of media and journalism education across different countries Introducing the book with an overview about the state of the art of journalism education and the research on a meta level the book moves on to talk about media studies in the Asian countries and in Arab world the African States and Brazil This book is an interesting read for all those who care about a vital media landscape and an open democratic society The recent economic and social developments present both opportunities and risks for journalism Freedom of expression and freedom of press even in democratic countries are under pressure This book provides an international perspective on the different aspects of journalism the situation in which journalists work their working conditions educational backgrounds struggles and successes It is aimed at an international public interested in the field of journalism and freedom of speech It addresses journalists trainers and academics Furthermore institutions in the field of development cooperation education or
