**EBOOK: Enhancing Learning, Teaching, Assessment and Curriculum in Higher Education** Veronica Bamber, Paul Trowler, Murray Saunders, Peter Knight, 2009-03-16 Higher education is a particularly complex site for enhancement initiatives This book offers those involved in change a coherent conceptual overview of enhancement approaches of the change context and of the probable interactions between them The book sets enhancement within a particular type of change dynamic which focuses on social practices The aim is to base innovation and change on the probabilities of desired outcomes materializing rather than on the romanticism of policies that underestimate the sheer difficulty of making a difference Following a theoretical introduction to these ideas there are case studies from the UK Australia New Zealand South Africa and Norway at the national institutional departmental and individual levels illustrating the argument that enhancement is best achieved when it works with social practices in real institutional and organizational settings In a final section the authors link the case examples and theoretical frameworks inviting readers to consider their own enhancement situations and apply the frameworks for action offered in earlier sections of the book The book doesn't offer quick fix solutions but aims to support

change with practical examples conceptual tools and reflexive questions for those involved in change at all levels It is key reading for higher education lecturers managers educational developers and policy makers      **Enabling institutional environments conducive to livelihood improvement and adapted investments in sustainable land and water uses**
