Master/slave Mastery--Protocols: : Focusing the Intent of Your Relationship Robert J. Rubel Ph. D., M. Jen Fairfield, 2016-07-30 Many get tripped up over the very concept of written protocols We've met many Masters who believe that writing out the way they want things done removes creativity from the relationship That's not the way we see it In our experience a protocol manual is much more than documenting rules of service Writing a protocol manual helps you examine and refine your relationship and your relationship management style The very process of creating a manual such as this reveals the kinds of service Master really wants from the slave and the kinds of service the slave can actually deliver In that light writing a protocol manual is an exercise in clarifying the intent of your relationship Biased as we are we assert that protocols help to reprogram both the Master's and the slave's brains They help you create habits Protocols don't merely define how you look on the outside protocols help shape how you think on the inside Since protocols specify the way Master wants this particular slave to do things and since people are different from one another protocol manuals are person specific
