programmes that are currently aligning the neoliberal reengineering of health and well being citizenship with the biopolitical healthcare financialisation of populations Paradoxically in their endeavour to actor network virtual well being health communities adsensory technologies proliferate the individuating marketised conditions of neoliberal self regulating entrepreneurialism This gives rise to aleatory materialist dialectics of financialised surveillance far exceeding the regulatory time and space modalities of Foucauldian panoptics and Mathiesen synoptics Adsensory technologies are integral to a seismic transformation in the cultural economies of time presently eliding digital advertising and insurantal technologies Axiomatic with the synchronic times of the adsensory technologies valorised by lifestyle insurance much riskier asynchronic embodied times transgressively dissimilating the limits of financialisation are beginning to emerge **iPhone: The Missing**
