1999

Engineers around the world are increasingly turning to online components and tools to create a new generation of products. The *State of California* is now online and will be able to offer services online.

• **Input:** a sequence of *Latent Space Representations* (code vectors) used to generate the images or to train any form of generative model (e.g. generative adversarial network) where the network output is expected to be a similar input sequence (usually, this time, it has more or different data, like noise added)
