

Root Watering Series

Primary Application

The Rain Bird® Root Watering Series (RWS) enables vital water, air and nutrients to bypass compacted soil and directly reach tree and shrub root systems. Its factory assembled irrigation hardware and patented barbed valve connector allow ground installation to a depth of 36" (91 cm) for the RWS, 18" (46 cm) for the RWS-Mini, and 10" (25 cm) for the RWS-Supplemental. This system is intended for use with water dispensing devices, such as a bubbler head or an emitter. This system can be customized by the end user to meet their specific required irrigation needs or can be purchased with pre-installed bubbler and check valve options.
