opportunity to read the whole text or parts of it while looking for specific information to answer a set of comprehension questions In addition students are asked to identify meanings of words and expressions in the reading text This practice allows them to make inferences about meanings and asks them to demonstrate their comprehension of the readings in a variety of ways such as using vocabulary in context VOCABULARY UNDERSTANDING introduces vocabulary in context Students match different vocabulary items with their descriptions This section tests students understanding of the readings by asking content questions LANGUAGE FOCUS includes grammar in practice where students are asked to differentiate between grammatical structures and understand their functional usage Students are also asked to provide written output in the form of linguistic structures which reflect the structures covered in the readings
