Welcome to Starline Press. Ninth grade Geometry students learn points and lines, line segments, rays, planes, and lines and points in planes. They study definitions of angles and degrees and measuring the size of angles. They learn to classify angles by size and relation and how to bisect an angle. Students study parallelograms, properties of a trapezoid, ratio and proportions, and the Pythagorean Theorem. Ninth grade students know, derive, and solve problems involving the perimeter, circumference, area, volume, lateral area, and surface area of common geometric figures. Students know the definitions of basic trigonometric functions defined by the angles of a right triangle. They also know and are able to use elementary relationships between functions. Starline Press is a character-based, state standards-aligned, individualized, and independent learning curriculum. Perfect for any independent learning environment from Homeschool to Adult High School completion and Home and Hospital instruction, it is designed to allow each student to progress at his or her own pace, which may vary from subject to subject. Students find the instruction embedded in the material so that the teacher's voice is heard within the text. Both objective and subjective assessment methods are used to ensure mastery of the material. Challenging activities are included in each unit to help students to acquire critical thinking skillsets. Each complete Starline Press Curriculum Course contains from 5 to 12 individual units from one semester to one year's instruction. The Starline Press core curriculum course list includes Math, English, Social Studies, and Science for 3rd through 12th grades. The Starline Press High School Elective curriculum course list includes Physical Education, Personal Finance, Spanish, and Automotive Technology, Home Economics, Art, Music, and many others. Each Unit 24 to 60 pages is about 3 weeks' work for a student and comes with a test inserted into the back for easy removal. The separately purchased Score Key comes with the Test Key inserted into the back of it. All units of a particular course must be completed to meet all of the objectives of that course. Starline's 3rd-8th grade curriculum offers 12 units per year. The 9th-12th grade curriculum offers 5 units per semester and 10 units per year. Designed with independent learning and Homeschool in mind, Starline is self-contained and includes lists of any additional resources needed to complete the units. Starline is a system of learning that is designed to be used independently but can also be used as remediation or enrichment, special education, individual ability, and paced material or homework.
