Cooperation and Engagement in the Asia-Pacific Region Myron H. Nordquist, John Norton Moore, Ronán Long, 2019-11-11 Cooperation and Engagement in the Asia Pacific Region brings together contributions from leading experts around the world in the law of the sea The volume addresses topics such as regional cooperation protection and preservation of the marine environment freedom of navigation sustainable fisheries and future cooperation within the important Asia Pacific region This book provides valuable insight into a region that encompasses many important maritime regions and harbors promising opportunities for maritime cooperation and engagement Responses to Sea Migration and the Rule of Law Katia

Bianchini, 2024-08-22 In the current debates on sea migration there is a dearth of works drawing on the rule of law This important book addresses this failing Considering the question from that conceptual framework it is able to broaden the sometimes fragmented and incomplete perspective of existing scholarship The book takes as its central case study the experience of Italy exploring the legal issues at play there and its institutional practices and policies From here its focus broadens out to the wider EU experience looking in particular at those problems common to southern EU states such as failures and delays in assisting migrants in distress at sea and contested legal grounds and practices concerning interceptions at sea It combines both legal and empirical data charting both the black letter law and how it operates in practice In a field as complex as this this clarity is key it allows lawyers political scientists and policymakers to truly engage with the challenges sea migration poses today Doctor on Board Jürgen Hauert, 2010-06-15 An essential guide for sailors dealing with medical problems or emergencies while at sea

Search and Rescue with Geographic Information Systems Emrah Söylemez, 2009-01-01 Search and Rescue with Geographic Information Systems Search and rescue operations are spatial activities Search planners must combine information on where the missing object was last seen likely routes and maps of the areas already searched time last searched and available resources to effectively mount a search area The main problem is to produce the reliable probability maps which accounts for these clues And Geographic Information

System is the best tool for Search and Rescue operations
