examples and two extended textual analyses to help the reader understand and apply it Part IV communication theory combines an extension of Greimasian sociosemiotics with other schools of thought This original theoretical section discusses fourteen consecutive communication models the synthesis of which results in a holistic social semiotic theory of communication American Poetry after Modernism Albert Gelpi, 2015-03-09 Albert Gelpi's *American Poetry after Modernism* is a study of sixteen major American poets of the postwar period from Robert Lowell to Adrienne Rich Gelpi argues that a distinctly American poetic tradition was solidified in the later half of the twentieth century thus severing it from British conventions In Gelpi's view what distinguishes the American poetic tradition from the British is that at the heart of the American endeavor is a primary questioning of function and medium The chief paradox in American poetry is the lack of a tradition that requires answering and redefining redefining what it means to be a poet and likewise how the words of a poem create meaning offer insight into reality and answer the ultimate questions of living Through chapters devoted to specific poets Gelpi explores this paradox by providing an original and insightful reading of late twentieth century American poetry
