Vegan Go-Go! Sarah Kramer, 2010-07-09 Sarah Kramer is a vegan superstar she was named the World's Coolest Vegan by Herbivore magazine and her first three cookbooks have sold a combined total of over 150 000 copies Vegan Go Go represents a change of pace for Sarah a cookbook and more for vegan travelers many of whom are daunted by the idea of going on the road and being able to locate and or prepare the kind of nutritious animal free meals they enjoy at home The new full colour book includes 150 recipes many of them new and others that have been adapted from her earlier books All of the recipes are easy to prepare with a minimum of ingredients but guaranteed to deliver energy nutrition and great flavour The rest of the book contains information and advice pertinent to vegan travelers from how to deconstruct a restaurant menu to what food items are best suited to carry around in your luggage or handbag There's even a section on How to Say I Am Vegan in numerous languages *Federal Librarian*, 2002 [The Newberg Report](#) Jamey Newberg, 2009-12-15 The Newberg Report pulls back the curtain on The Texas Rangers baseball team by taking a look at everything from what the organization does to the intuitive emphasis on the how and the why The book now in its 10th edition encourages casual fans to get more involved while providing hardcore fans with a forum to discuss their beloved team It's written by baseball guru Jamey Newberg *Re-Thinking Autism* Sami Timimi, Rebecca Mallett, Katherine Runswick-Cole, 2016-05-05 Disputing the existing accepted approaches to autism and the focus on diagnosis and treatment this book challenges the attitudes assumptions and prejudices around autism that are generated from the medical model suggesting that they can be marginalising limiting and potentially damaging to the individuals labelled with autism *Civil War Torpedoes and the Global Development of Landmine Warfare* Earl J. Hess, 2023-01-30 Civil War Torpedoes and the Global Development of Landmine Warfare recounts the use of landmines in the American Civil War from their predecessors before 1861 through their legacy in the post Cold War era A handful of Confederates pioneered the use of torpedoes as landmines were commonly called in the 1860s burying them in front of fortifications along roads and as booby traps Federal troops quickly learned how to deal with them often using Confederate prisoners to dig them up The first doctrine of landmine use in global history appeared during the Civil War Hess discusses not only the technical and tactical aspects of the Civil War torpedo but the

morality and doctrine that surrounded this weapon in ways that illuminate how modern landmines have shaped international conflicts to our own time Through intensive research in archival institutions published primary sources and technical literature Hess has created the definitive account of Civil War era landmine warfare within its global context *Grade R in Perspective* Anel Pepler,2015-12-01 *Grade R in Perspective* is a structured academic guide for students educators and practitioners in the field of early child development It is compiled according to the Curriculum and Assessment Policy Declaration CAPS of the National Department of Education 2011 and presents the latest tendencies of international sources The focus is put on preparing the student to understand the principles of the informal teaching approach and to implement them Clear directions are given to develop knowledge skills and attitudes in the young child so that each learner can achieve self realisation Information is given on organising the classroom and the play area to create optimal learning opportunities for the learners The different levels of development and cultures of the learners are taken into consideration Valuable suggestions for teaching in practice are illustrated with appropriate examples and photos Justice and Governance in East Timor Rod Nixon,2013-06-17 Focusing on the case study of Timor Leste this book presents the New Subsistence State as a conceptual tool for understanding governance challenges in countries characterised by subsistence economic and social relations It examines the ways in which Timor Leste conforms to the typology of the New Subsistence State taking into consideration geographic historical and socio political aspects The book defines a New Subsistence State as an overwhelmingly subsistence economy corresponding to little or no historical experience of the generation and administration of large surpluses with minimal labour specialisation and the predominance especially in rural areas of traditional authority relations It looks at how these features restrict the capacity of the new state to operate effectively in accordance with the modern state model The book presents a case for prioritising sustainable approaches to public administration in New Subsistence State contexts It goes on to examine the historical role of village justice systems and demonstrates how a community justice and mediation program building on existing capacities could prove an economical means of promoting human rights values and reducing the burden on the national courts The book presents an interesting contribution to studies on Southeast Asian Politics and Governance Augmented Reality Art Vladimir Geroimenko,2022-05-16 This is the third edition of the first ever book to explore the exciting field of augmented reality art and its enabling technologies The new edition has been thoroughly revised and updated with 9 new chapters included As well as investigating augmented reality as a novel artistic medium the book covers cultural social spatial and cognitive facets of augmented reality art It has been written by a virtual team of 33 researchers and artists from 11 countries who are pioneering in the new form of art and contains numerous colour illustrations showing both classic and recent augmented reality artworks Intended as a starting point for exploring this new fascinating area of research and creative practice it will be essential reading not only for artists researchers and technology developers but also for students graduates and undergraduates and all those interested in

emerging augmented reality technology and its current and future applications in art *HIV in World Cultures* Gustavo Subero,2016-04-22 This book analyses the way that HIV AIDS is often narrativised and represented in contemporary world cultures as well as the different strategies of remembrance deployed by different sub cultural groups affected by the illness Through a close study of a variety of cultural texts including cinema literature theatre art and photography amongst others it demonstrates the trajectory that such narratives and representations have undergone since the advent of the discovery of the disease in the 1980s Acknowledging the central yet often overlooked role that cultural products have played in the construction of public opinion towards the condition itself and those who suffer it this ground breaking volume focuses on a variety of narratives as well as strategies of coping with HIV AIDS that have emerged across the globe Bringing together research on the UK North and South America Africa and China it provides rich textual analyses of the ways in which the HIV positive body has been portrayed in contemporary culture with attention to the differences between specific national contexts whilst keeping in view a space of commonality amongst the different experiences reflected in such texts As such it will be of interest to social scientists and scholars of cultural and media studies concerned with cultural production and representations of the body and sickness **Open Learning Cultures** Ulf-Daniel Ehlers,2013-09-12 Today we are seeing a new form of blended learning not only is technology enhancing the learning environment but formal and informal learning are combining and there is self and peer assessment of results Open learning cultures are challenging the old and long practiced methods used by educators and transforming learning into a more student driven and independent activity which uses online tools such as blogs wikis or podcasts to connect resources students and teachers in a novel way While in higher education institutions most assessments are still tied to formal learning scenarios teachers are more and more bound to recognize their students informal learning processes and networks This book will help teachers lecturers and students to better understand how open learning landscapes work how to define quality and create assessments in such environments and how to apply these new measures To this end Ehlers first elaborates the technological background for more collaborative distributed informal and self guided learning He covers the rise of social media for learning and shows how an architecture of participation can change learning activities These new paradigms are then applied to learning and education to outline what open learning landscapes look like Here he highlights the shift from knowledge transfer to competence development the increase in lifelong learning and the importance of informal learning user generated content and open educational resources He then shows how to manage quality by presenting a step by step guide to developing customized quality concepts for open learning landscapes Finally several methods dealing with assessment in these new environments are presented including guidelines templates and use cases to exemplify the approaches Overall Ehlers argues for assessment as an integral part of learning processes with quality assurance as a method of stimulating a quality culture and continuous quality development rather than as a simple controlling exercise □□□□□□□□□□ □□□,2018-06-19 The Academic

Community Donald Eugene Hall, 2007 In *The Academic Community A Manual for Change* Donald E Hall builds on his earlier *The Academic Self An Owner s Manual* 2002 and confronts the most pressing issues in higher education today the coherence of undergraduate instruction priorities in graduate training public perceptions of colleges and universities and collegiality and cohesion within departments and institutions Drawing on the dialogue based theories of the German philosopher Hans Georg Gadamer Hall urges a reinvestment in community building by academics with chapters examining the process of community creation and enhancement in the classroom the department and college and the broader regions which surround university campuses In offering concrete strategies for revitalizing college and university classes and campuses Hall urges readers to become agents of change within their institutions and the larger political arena Among the topics he addresses are undergraduate training in public intellectualism graduate training in institutional service and collegiality and institutional commitments to public outreach and community service The book offers real life examples and practical tips in its far ranging discussion of the state of higher education in the United States today *The Academic Community A Manual for Change* is a clarion call for a renewed optimism energy and focus in tackling the complex problems facing the academy in the twenty first century
