Limpopo's Legacy Anne Heffernan, 2019 Argues that the historical primacy of youth politics in Limpopo South Africa has influenced the production of generations of nationally prominent youth and student activists among them Julius Malema Onkgopotse Tiro Cyril Ramaphosa Frank Chikane and Peter Mokaba Overview of the Implementation of the Financial Disclosure Framework ,2015 *Financial inclusion* Munacinga C. Simatele, 2022-02-15 Financial inclusion has been noted as a key driver of poverty alleviation and growth Yet most of the scholarly work that exists lacks a comprehensive discussion of how the poor interact with financial services and the channels through which such services can affect their livelihoods This book offers researchers who focus on financial inclusion and African economies a one stop resource for understanding the channels of transmission for financial inclusion as well as an application of these channels through original country specific empirical papers The book provides a back to basics presentation of the transmission of financial services to growth and poverty This theoretical discussion is complemented by an empirical presentation of the various services used by the poor with a focus on Africa Case studies of financial inclusion in six African countries cover a broad range of topics most important to African countries and highlight the unique African setting These empirical papers provide important learning points Firstly hybrid financial institutions such as cooperative financial institutions and financial social entrepreneurs are the best way to increase financial inclusion in Africa They provide important vehicles to circumvent the restrictive and exclusive bank based financial markets typical of African economies Secondly digital finance is a potent tool for improving financial access and usage in Africa and its impact on poverty operates through both traditional and nontraditional financial instruments Thirdly investment in infrastructure which supports complementary markets is critical and is likely to have a greater effect on credit rationing than direct provision of credit to small businesses **Intra-Africa Migrations** Inocent Moyo, Jussi P. Laine, Christopher Changwe Nshimbi, 2021-02-21 This book discusses regional and continental integration in Africa by examining the management of migration across the continent It examines borders and securitisation of migration and the challenges and opportunities that arise out of reconfigured continental demographics The book offers insights on intra Africa migrations and highlights how intra continental migration creates socio economic and cultural borders It explores how these borders beyond the physical boundaries of states including the Berlin Conference constructed borders create cultural divides challenges for economic integration and cross border security and irregular migration patterns While the movement of economic goods is valued for regional economic integration the mobility of people is seen as a threat This approach to migration contradicts the intentions of true integration and development and triggers negative responses such as xenophobia that cannot be addressed by simply managing the physical border and allowing free movement This book engages in a pivotal discussion of these issues which are hitherto missing in African border studies by demonstrating the ubiquity and overreaching influence of various kinds of borders on the African continent With multidisciplinary contributions that provide

an in depth understanding of intra Africa migrations and strategies for enhanced migration management this book will be a useful resource for scholars and students studying geography politics security studies development studies African studies and sociology *2024-25 IAS/PSC General Studies Indian & World Geography YCT Expert Team , 2024 25 IAS PSC General Studies Indian World Geography* Management Studies in South Africa Shaun Ruggunan,R. Sooryamoorthy,2018-09-20 This book examines the trajectory of management studies in South Africa during the apartheid and post apartheid periods The unique political journey of South Africa provides a distinctive context in which to explore the progression of management studies within a developing state The authors consider how Apartheid has configured the discipline of management studies to reflect certain racial institutional and gendered trends and analyse the extent to which these trends have adapted or changed in post Apartheid times Appealing to management scholars and professionals this book provides implications for policy and practice within the South African higher education sector and presents avenues for future research **Climate change, land, water and food security: Perspectives from sub-saharan africa** Mulala Danny Simatele,Felix Kwabena Donkor,Henry Bikwibili Tantoh,2023-06-22 **Borders, Mobility, Regional Integration and Development** Christopher Changwe Nshimbi,Inocent Moyo,2020-06-22 This book examines social economic and political issues in West Eastern and Southern Africa in relation to borders human mobility and regional integration In the process it highlights the innovative aspects of human agency on the African continent and presents a range of empirical case studies that shed new light on Africa s social economic and political realities Further the book explores cooperation between African nation states including their historical socioeconomic interconnections and governance of transboundary natural resources Moreover the book examines the relationship between the spatial mobility of borders and development and the migration regimes of nation states that share contiguous borders in different geographic territories Further topics include the coloniality of borders sociocultural and ethnic relations and the impact of physical borders on human mobility and wellbeing Given its scope the book represents a unique resource that offers readers a wealth of new insights into today s Africa Ecotourism in Sub-Saharan Africa Kenneth Backman,Ian E. Munanura,2017-07-14 Since its first mention in the academic literature ecotourism has been endorsed by NGOs and governments as the most environmentally sound and locally beneficial method of tourist development Over the last thirty years sub Saharan Africa has adopted ecotourism as the primary focus for tourism development research into this has demonstrated mixed results In this publication we seek to explore the actual outcomes for African countries that have developed their tourism policy around the principals and values of ecotourism The sheer scope and magnitude of the task means that a complete evaluation of ecotourism in Africa is impossible Instead included here are spot assessments of various aspects of ecotourism related to conservation policy development environment governance community and indigenous peoples in southern Africa The studies cover a wide array of countries including Botswana Kenya Tanzania Uganda Ghana Zimbabwe and South Africa Though this is only the beginning of a needed long term evaluation of

the positives and negatives of ecotourism it provides a starting point from which to move forward This book was originally published as a special issue of the Journal of Ecotourism **Africa's Urban Youth** Amy S. Patterson, Tracy Kuperus, Megan Hershey, 2023-08-10 Making up 65 percent of Africa's population young people between the ages of 18 and 35 play a key role in politics yet they live in an environment of rapid urbanization high unemployment rates and poor state services Drawing from extensive fieldwork in Ghana Uganda and Tanzania this book investigates how Africa's urban youth cultivate a sense of citizenship in this challenging environment and what it means to them to be a good citizen In interviews and focus group discussions African youth activists and community leaders vividly explain how income religion and gender intertwine with their sense of citizenship and belonging Though Africa's urban youth face economic and political marginalization as well as generational tensions they craft a creative citizenship identity that is rooted in their relationships and obligations both to each other and the state Privileging above all the voice and agency of Africa's young people this is a vital systematic examination of youth and youth citizenship in urban environments across Africa
