Technical Manual to Accompany Automotive Technology Jack Erjavec, 1992-03

**Use Today's Technician: Automatic Transmissions &** Jack Erjavec, 2010-06-09

The Today's Tech format has been well received since its launch in the 1990s. With each new edition, incremental improvements have been made to the textbook's content in text pedagogy and instructor supplements. Achieving a high level of technical accuracy is an especially high priority since early editions were not consistently accurate. The Fifth Edition of TT ATT will adhere to the new Today's Tech 5e Series guidelines (see below for details). In addition, NATEF's 2008 task list will be reflected in the job sheets in the shop manual. The major new trend in the field is increasing importance of electronic automatic transmissions. Hybrid transmissions also require greater coverage. The importance of robust instructor packages is not new but takes new shapes as instructional technologies evolve and become more integral to the teaching process. For the 5e, we will offer the now standard Instructor Resource components: PPT slides, CTBs, image libraries, interactive jobsheets, and NATEF ASE correlation grids, and a separate saleable BlackBoard WebTutor Advantage.
