Heselton,2020-11-26 This book was written specifically for boiler plan operators and supervisors who want to learn how to lower plant operating costs as well as how to operate plants of all types and sizes more wisely It is newly revised with guidelines for HRSGs combined cycle systems and environmental effects of boiler operation Also included is a new chapter on refrigeration systems that addresses the environmental effects of inadvertent and intentional discharges of refrigerants Going beyond the basics of keeping the pressure up the author explains in clear terms how to set effective priorities to ensure optimal plant operation including ensuring safety and continuity of operations preventing damage managing environmental impact training replacement plant operators logging and preserving historical data and operating the plant economically **The Wonder of Touch** William E. Dorman,2021-04-19 The central message of this book is that the well

being of body mind spirit and planet requires that we nurture our connections From our skin to the cosmic to sights and sounds to the Transcendent this book takes us by the hand to marvel at how life itself is a constellation of interrelationships of touch We cannot not touch and be touched Humans live in a biosphere of touch the touch thriving and bustling within our bodies the touch of our relationships with family and friends the touch between neighbors the touch with Mother Nature and the touch with the Transcendent Selfishness and self centeredness are the powers withering us and the planet In our confrontation with our anxiety at death guilt and meaningless we sever the very interrelations that nourish and enrich life It is imperative as perhaps never before that we restore our touch with our deepest selves others Mother Nature and the Transcendent
