Handbook of Individual Differences in Social Behavior Mark R. Leary, Rick H. Hoyle, 2013-12-17 How do individual differences interact with situational factors to shape social behavior Are people with certain traits more likely to form lasting marriages experience test taking anxiety break the law feel optimistic about the future This handbook provides a comprehensive authoritative examination of the full range of personality variables associated with interpersonal judgment behavior and emotion The contributors are acknowledged experts who have conducted influential research on the constructs they address Chapters discuss how each personality attribute is conceptualized and assessed review the strengths and limitations of available measures including child and adolescent measures when available present important findings related to social behavior and identify directions for future study Borderline Peter Kenneth Chadwick, 1992 Borderline provides a study of the disturbed mind Professional psychologist Peter Chadwick draws upon his own personal experience of madness to provide an exploration of the psychology of paranoia and schizophrenia The book goes beyond a narrowly focused analytical approach to examine schizophrenia from as many perspectives as possible Using participant observation introspection case study and experimental methods Chadwick shows how paranoid and delusional thinking are only exaggerations of processes to be found in normal cognition Impressed by the similarities between the thinking of mystics and psychotics he argues that some forms of madness are closely related to profound mystical experience and intuition but that these are expressed in a distorted form in the psychotic mind He explores the many positive characteristics and capabilities of paranoid patients providing a sympathetic account which balances the negative constructions usually put on paranoia in the research literature Borderline provides many novel insights into madness and raises important questions as to how psychosis and psychotics are to be evaluated psychotherapists and students of religion and psychology Clergy Self-Care Roy M.
