National, International and Governmental Environment Reza Zanjirani Farahani, Nasrin Asgari, Hoda Davarzani, 2009-07-09 Logistics is an integral part of our everyday life. Today it influences more than ever a large number of human and economic activities. In this book, authors try to illustrate some advanced logistics and supply chain management topics recently mentioned by academic and industrial personnel. This book has been organized in 12 chapters such that the reader can study each chapter not only independently as shown in Fig 1 but also as part of a whole. If someone wants to study the book more deeply, the suggested approach for this study is shown in Fig 2. So the readers of this book may be divided into at least two groups: 1. students in Master's courses or higher who can use this book in their courses as a whole and 2. experts who want to learn more about a new topic in logistics and supply chain management. This group may want to read a chapter about a special topic that is found in this book. In the context of global competition, the more latent topics in logistics supply chain management are fast growing. This book falls within this perspective and presents 12 chapters that well illustrate the variety and complexity of these topics. This book is organized as follows: Chapter 1 introduces logistics and supply chain management and contains some primal definitions about these two concepts, some obstacles, prerequisites and infrastructures of modernized logistics and supply chain management and global supply chain management are illustrated.

ICIDC 2022 Zuriati Ahmad Zukarnain, Ming Jin, Ong Tze San, 2022-10-13 The 2022 International Conference on Information Economy Data Modeling and Cloud Computing ICIDC 2022 was successfully held in Qingdao, China, from June 17 to 19, 2022. Under the impact of COVID-19, ICIDC 2022 was held adopting a combination of online and offline conference. During this conference, we were greatly honored to have Prof. Datuk Dr. Hj. Kasim Hj. Md.
