excited about the newest gadgets that are certain to suck your wallets dry And every September almost as an afterthought something else is mentioned something that is actually free The latest version of Mac OS You of course need to own a Mac computer such as MacBook Mac Mini or iMac to get it but Apple keeps updates absolutely free When Mac updates it s OS it tends to follow the formula as iOS there are lots of changes but a lot of them are not very obvious The purpose of this book is twofold one to help you understand all the biggest features two to help you if you ve never used a Mac before This book is intended for people who want to get started quickly For that reason it s not as comprehensive as other guides If you want to know about some feature buried deep under the hood that you ll never use then there are other books for you I m sure they ll make good doorstops when you finish If you just want a simple guide that tells you what you need to know so you can use your computer already then this book is for you If you re new to Mac perhaps switching over from Windows then this book will help you figure out all the similarities and differences because so many people come to Mac from Windows this book is written in a way to help with that transition I purposely have done my best to make this handbook a little more casual and fun then what you expect from most Mac OS manuals Mac OS is an operating system and any guide you read should be an equally fun read Each chapter starts with bullet points on what will be covered so if something you already know you can skip right ahead if you only need to know how to use new features the book is also formatted in a way that these stand out Are you ready to start enjoying the new Mac OS Then let s get started *Mac Mini User Guide* Tom O Hank,2020-12-05
