 - The interference was direct;
 - The act was intentional or negligent; and
 - There was no "consent" of lawful justification for such conduct.

 - (ii) Fault
 - There is no liability unless the act is done intentionally or negligently: *Coll v Turner*
 - D must bring about the action consciously which result in battery: *McNairne v Dawson*; In this case court held that P did not consent to blow struck by D when he had let go off the ball in AFL match
 - Knowledge of contact is not essential: *Murray v Ministry*
 - *Stone v Star City Centre*: D placed hand on P shoulder to get his attention – no battery
 - (iii) Consent

Torts, Egalitarianism and Distributive Justice Professor Tsachi Keren-Paz, 2013-01-28 This book argues from a normative perspective for the incorporation of an egalitarian sensitivity into tort law and more generally into private law It shows how an egalitarian sensitivity can reformulate tort doctrine with an emphasis on the tort of negligence Rather than a comprehensive descriptive account of existing tort law this book pro actively searches for new approaches and conceptual tools to meet the challenges faced by egalitarians The understanding of tort law offered in this book will bring about better practical results in specific cases It supports the progressive troops in the ongoing philosophical and social battles that take place in the field of tort law and also adds another voice rich nuanced and sensitive to the chorus that is tort theory

A Theory of Tort Liability Allan Beever, 2016-08-25 This book provides a comprehensive theory of the rights upon which tort law is based and the liability that flows from violating those rights Inspired by the account of private law contained in Immanuel Kant s Metaphysics of Morals the book shows that Kant s theory elucidates a conception of interpersonal wrongdoing that illuminates the operation of tort law The book then utilises this conception applying it to the various areas of tort law in order to develop an understanding of the particular areas in question and just as importantly their relationship to each other It argues that there are three general kinds of liability found in the law of tort liability for putting another or another s property to one s purposes directly liability for doing something to a third party that puts another or another s property to one s purposes and liability

for pursuing purposes in a way that improperly interferes with the ability of another to pursue her legitimate purposes It terms these forms liability for direct control liability for indirect control and liability for injury respectively The result is a coherent philosophical understanding of the structure of tort liability as an entire system In developing its position the book considers the laws of Australia Canada England and Wales New Zealand and the United States *Wiley CPA Examination Review, Problems and Solutions* Patrick R.
