Intelligent Information Processing and Web Mining Mieczyslaw A. Klopotek, Slawomir T. Wierzchon, Krzysztof Trojanowski, 2013-06-05 This volume contains articles accepted for presentation during The Intelligent Information Processing and Web Mining Conference IIS IIPWM 04 which was held in Zakopane Poland on May 17-20 2004 This conference is a continuation of a series of 13 successful symposia and conferences on Intelligent Information Systems organized by the Institute of Computer Science of Polish Academy of Sciences devoted to new trends in broadly understood Artificial Intelligence The idea of organizing such meetings dates back to 1992 Our main intention guided the first rather small audience workshop in the series was to resume the results gained in Polish scientific centers as well as contrast them with the research performed by Polish scientists working at the universities in Europe and USA and their foreign collaborators This idea proved to be attractive enough that we decided to continue such meetings As the years went by the workshops has transformed into regular symposia devoted to such fields like Machine Learning Knowledge Discovery Natural Language Processing Knowledge Based Systems and Reasoning and Soft Computing i.e. Fuzzy and Rough Sets Bayesian Networks Neural Networks and Evolutionary Algorithms At present about 50 papers prepared by researches from Poland and other countries are usually presented This year conference devotes much more

attention to the newest developments in the area of Artificial Intelligence related to broadly understood Web mining

Physician Workforce Diversity Curtiland Deville Jr., 2024-10-21 This book offers a comprehensive summary of the current and historical trends in physician workforce diversity by residency training specialty and demographic identity group. This book serves as a one stop source for physician workforce diversity from the perspective of training specialties summarizing trends over time historical barriers and specialty specific interventions and solutions. Chapters provide a necessary foundational resource for medical educators seeking to enhance diversity equity and inclusion DEI in their programs and programming. It similarly supports health system and organizational leaders in understanding the current and historical landscape of DEI across medical specialties and demographic groups to inform their interventions and initiatives in an evidence based manner. The book is divided into two sections training specialties and demographic identity groups. In the first section DEI within several of the largest medical residency training specialties is explored. In the second section the representation trends of various demographic identity groups including women and individuals from racial and ethnic minority groups and deaf and disabled individuals are discussed as well as barriers and solutions to improving representation equity and inclusion. Each chapter will follow the same format. Relevant specialty or demographic specific literature is reviewed discussing the rationale for workforce diversity and inclusion in that specialty or demographic identity group. Current data by race ethnicity sex and other available demographics is discussed for various trainee and practicing physician categories across the training and professional continuum such as practicing physicians academic faculty graduate medical education residents and fellows residency applicants and medical school graduates. Historical demographic trends are assessed over time. This is followed by a thorough discussion of specialty or demographic specific strengths and weaknesses to DEI and related barriers impediments and interventions and solutions. This is an ideal guide for medical educators department chairs in academia and private community practice health system leaders healthcare organization board members and executive leaders diversity thought leaders search committees and medical students and trainees especially during their specialty selection process.
