

HE420A Steam Power Humidifier

INSTALLATION INSTRUCTIONS

APPLICATION

The HE420A Steam Power Humidifier uses a thermal fan powered control to provide humidification for the entire house. The steam power humidifier is designed to work with high efficiency furnaces and heat pumps.

INSTALLATION

IMPORTANT

This product is for residential applications only and must be installed by a qualified HVAC contractor. Failure to comply could invalidate the product warranty or result in serious injury or death.

SELECT LOCATION AND MOUNT

⚠ WARNING

Electrocution, Heavy Equipment and Chemical Hazard.
Can cause injury, blindness, water damage to home and heater failure.

- DO NOT put into any air conditioning or electrical line.
- Wear safety glasses when cutting or drilling.
- Mount the humidifier in a level position to avoid water damage and heater failure.
- Rebalance duct as necessary to ensure stability.

There are three typical ways of mounting the steam humidifier. See Fig. 1, 2, and 3. Be sure to select a location where the humidifier can be plugged in without an extension cord. The preferred installation location is on the return air side of the furnace. If that location is not possible, the humidifier should be mounted a minimum of 6-8 ft. line upstream from the furnace filter. Depending on the location selected, additional duct reinforcement may be necessary because the humidifier weighs 18 lb when filled with water.

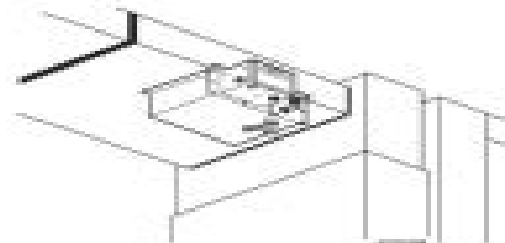

Fig. 1. Mount humidifier horizontally under duct using mounting bracket.

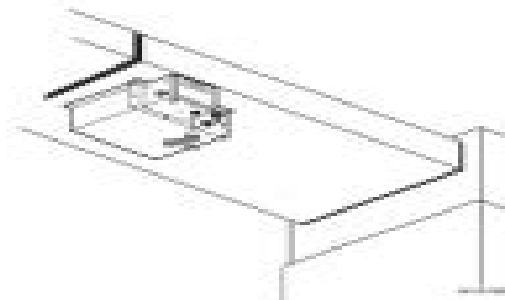

Fig. 2. Mount humidifier horizontally under duct.
