

Quick Start Guide

Move/5000

GETTING STARTED

Set up your base unit in a convenient location close to a power source and an Ethernet socket.

To connect the Ethernet cable, connect one side to your Ethernet socket or router and the other side to the socket located on the rear of your base unit.

To connect the base unit to a telephone point, remove the back panel as shown in the diagram. Connect one end of the telephone cable to the modem socket on your base unit.

CONNECTIVITY

The Move/5000 is a Multi-Comms terminal meaning you can connect via Ethernet, Mobile Network or WiFi/Bluetooth.

To setup a mobile connection on the terminal, you simply need to insert the SIM card into the back of the Terminal and reboot using the dot key and yellow key.

FUNCTION KEYS

Virtual Function Keys: These appear on the Touchscreen interface when they may be used as shortcuts eg. F1 to print a duplicate receipt.

Menu key: To enter the application menus press the Menu key from the idle (READY) screen. Pressing the key again moves to the next menu (if available).

Correction keys: When entering numbers or letters, the yellow key deletes one character at a time; while the red key deletes the entire line (this key also cancels transactions). **Confirmation key:** The green key is used to confirm anything that has been typed into the terminal.

Paper feed key: To test the feeding of the paper through the printer press and hold the paper feed key.

Connecting the base unit
