EBOOK: Human Resources for Health in Europe Carl-Ardy Dubois, Ellen Nolte, Martin McKee, 2005-12-16. Health service human resources are key determinants of health service performance. The human resource is the largest and most expensive input into health care, yet it can be the most challenging to develop. This book examines some of the major challenges facing health care professions in Europe and the potential responses to these challenges. The book analyses how the current regulatory processes and practices related to key aspects of the management of the health professions may facilitate or inhibit the development of effective responses to challenges facing health care systems in Europe. The authors document how health care systems in Europe are confronting existing challenges in relation to the health workforce and identify the strategies that are likely to be most effective in optimizing the management of health professionals in the future. Human Resources for Health in Europe is key reading for health policy makers and postgraduates taking courses in health services management, health policy and health economics. It is also of interest to human resource professionals. Contributors: Carl Afford, Rita Baeten, James Buchan, Anna Dixon, Carl Ardy Dubois, Sigr n Gunnarsd ttir, Elisabeth Kachur, Karl Krajic, Suszy Lessof, Ann Mahon, Alan Maynard, Martin McKee, Ellen Nolte, Anne Marie Rafferty, Charles Shaw, Bonnie Sibbald, Ruth Young.

Textbook of Hospital Administration Sonu Dr Goel, 2013-12-31. This work ushers in a change in the approach of books on hospital administration. To make the text interesting, authors have used the case-based learning approach. Apart from this, many new topics have been introduced in this book which had not been addressed so far in the available books. For example, due importance has been given to the role of the engineering department in ensuring provision of good quality of medical care by the hospitals. New concepts in hospital administration like information therapy, use of information and communication technology, health promoting hospital approach, impact of globalization on hospital care, etc. have also been introduced through this book. USP of the book is giving due importance to the feedback from experienced hospital administrators across public and private hospitals of the country. This book will surely be of use to medical superintendents and hospital administrators in government and private hospitals in India and other countries. Students as well as teachers of various courses, namely regular and distant learning courses of MBA in Health Care, Hospital Administration, Diploma of Masters in Hospital Administration, MD in hospital administration, MD in community medicine, Diploma Masters in Laws, Master's in Public Health, will also find this book of immense value. This book will also be helpful for civil surgeons and senior medical officers of state health services.

The book comprehensively consolidates a lot of practical aspects by incorporating plenty of illustrations photographs case studies real life situations etc which will help the readers to get a realistic practical experience Salient Features New concepts in hospital administration like use of information and communication technology health promoting hospital approach impact of globalization on hospital care role of engineering department and information therapy etc have been introduced Case Studies presented in the chapters are useful for case based learning approach Comprehensively consolidates a lot of practical aspects by incorporating plenty of Flowcharts Figures and Tables help the readers to get a realistic practical experience
