HCI International 2020 - Late Breaking Posters Constantine Stephanidis, Margherita Antona, Stavroula Ntoa, 2020-11-07 This book constitutes the extended abstracts of the posters presented during the 22nd International Conference on Human Computer Interaction HCII 2020 which was held in July 2020. The conference was planned to take place in Copenhagen, Denmark, but had to change to a virtual conference mode due to the COVID-19 pandemic. From a total of 6326 submissions, a total of 1439 papers and 238 posters have been accepted for publication in the HCII 2020 proceedings before the conference took place. In addition, a total of 333 papers and 144 posters are included in the volumes of the proceedings published after the conference as Late Breaking Work papers and posters. These contributions address the latest research and development efforts in the field and highlight the human aspects of design and use of computing systems. The 82 papers presented in this volume are organized in topical sections as follows: design for all and sensitive technologies; virtual, augmented and mixed reality; learning; HCI culture and art; health and wellbeing applications; HCI in mobility; automotive and aviation.

International Conference on Applications and Techniques in Cyber Security and Intelligence ATCI 2018 Jemal Abawajy, Kim-Kwang Raymond Choo, Rafiqul Islam, Zheng Xu, Mohammed Atiquzzaman, 2018-11-05 The book highlights innovative ideas, cutting edge findings and novel techniques, methods and applications touching on all aspects of technology and intelligence in smart city management and services. Above all, it explores developments and applications that are of practical use and value for Cyber Intelligence related methods which are frequently used in the context of city management and services.

Mechanics and Mechatronics (icmm2015) - Proceedings of the 2015 International Conference A. Mehran Shahhosseini, 2015-11-02 This proceedings brings together one hundred and fifty-two selected papers presented at the 2015 International Conference on Mechanics and Mechatronics ICMM 2015 which was held in Changsha, Hunan, China, during March 13-15, 2015. ICMM 2015 focuses on 7 main areas: Applied Mechanics, Mechanical Engineering, Instrumentation, Automation and Robotics, Computer Information Processing, and Civil Engineering. Experts in this field from eight countries including China, South Korea, Taiwan, Japan, Malaysia, Hong Kong, Indonesia, and Saudi Arabia contributed to the collection of research results and developments. ICMM 2015 provides an excellent international platform for researchers to share their knowledge and results in theory, methodology, and applications of Applied Mechanics and Mechatronics. All papers selected to this proceedings were subject to a rigorous peer review process by at least two independent peers. The papers are selected based on innovation, organization, and quality of presentation.

The Handbook of Contemporary Cambodia Katherine Brickell, Simon Springer, 2016-09-13 Offering a comprehensive overview of the current situation in the country, The Handbook of Contemporary Cambodia provides a broad coverage of social, cultural, political, and economic development within both rural and urban contexts during the last decade. A detailed introduction places Cambodia within its global and regional frame, and the handbook is then divided into five thematic

sections Political and Economic Tensions Rural Developments Urban Conflicts Social Processes Cultural Currents The first section looks at the major political implications and tensions that have occurred in Cambodia as well as the changing parameters of its economic profile The handbook then highlights the major developments that are unfolding within the rural sphere before moving on to consider how cities in Cambodia and particularly Phnom Penh have become primary sites of change The fourth section covers the major processes that have shaped social understandings of the country and how Cambodians have come to understand themselves in relation to each other and the outside world Section five analyses the cultural dimensions of Cambodia's current experience and how identity comes into contact with and responds to other cultural themes Bringing together a team of leading scholars on Cambodia the handbook presents an understanding of how sociocultural and political economic processes in the country have evolved It is a cutting edge and interdisciplinary resource for scholars and students of Southeast Asian Studies as well as policymakers sociologists and political scientists with an interest in contemporary Cambodia

International Conference on Applications and Techniques in Cyber Intelligence ATCI 2019 Jemal H. Abawajy, Kim-Kwang Raymond Choo, Rafiqul Islam, Zheng Xu, Mohammed Atiquzzaman, 2019-07-31 This book presents innovative ideas cutting edge findings and novel techniques methods and applications in a broad range of cybersecurity and cyberthreat intelligence areas As our society becomes smarter there is a corresponding need to be able to secure our cyberfuture The approaches and findings described in this book are of interest to businesses and governments seeking to secure our data and underpin infrastructures as well as to individual users

Theory, Methodology, Tools and Applications for Modeling and Simulation of Complex Systems Lin Zhang, Xiao Song, Yunjie Wu, 2016-09-21 This four volume set CCIS 643 644 645 646 constitutes the refereed proceedings of the 16th Asia Simulation Conference and the First Autumn Simulation Multi Conference AsiaSim SCS AutumnSim 2016 held in Beijing China in October 2016 The 265 revised full papers presented were carefully reviewed and selected from 651 submissions The papers in this second volume of the set are organized in topical sections on HMI and robot simulations modeling and simulation for intelligent manufacturing military simulation visualization and virtual reality

Key Technologies Of Metro Construction In Hard Rock Stratum Quanwei Liu, 2020-09-03 This book is a comprehensive and objective study of the theory and construction methods of metro construction in hard rock stratum It is based on the construction of the Qingdao metro and provides key techniques for metro construction in hard rock stratum in a systematic manner Detailed data accurate charts and pictures are provided to guide future metro construction in hard rock stratum in China Divided into six chapters Key Technologies of Metro Construction in Hard Rock Stratum covers various construction technologies in hard rock stratum including 1 drilling and blasting construction technology 2 open cut station construction technology 3 subsurface excavated station construction technology 4 grouting reinforcement technology in adverse geological section and 5 standardized metro construction technology It can be used as reference for design construction monitoring or supervision staff as well as teachers and students engaged in metro

and underground construction to facilitate exchange of ideas

Managing Software Process Evolution Marco

Kuhrmann, Jürgen Münch, Ita Richardson, Andreas Rausch, He Zhang, 2016-09-15 This book focuses on the design development management governance and application of evolving software processes that are aligned with changing business objectives such as expansion to new domains or shifting to global production In the context of an evolving business world it examines the complete software process lifecycle from the initial definition of a product to its systematic improvement In doing so it addresses difficult problems such as how to implement processes in highly regulated domains or where to find a suitable notation system for documenting processes and provides essential insights and tips to help readers manage process evolutions And last but not least it provides a wealth of examples and cases on how to deal with software evolution in practice Reflecting these topics the book is divided into three parts Part 1 focuses on software business transformation and addresses the questions of which processes to use and adapt and how to organize process improvement programs Subsequently Part 2 mainly addresses process modeling Lastly Part 3 collects concrete approaches experiences and recommendations that can help to improve software processes with a particular focus on specific lifecycle phases This book is aimed at anyone interested in understanding and optimizing software development tasks at their organization While the experiences and ideas presented will be useful for both those readers who are unfamiliar with software process improvement and want to get an overview of the different aspects of the topic and for those who are experts with many years of experience it particularly targets the needs of researchers and Ph D students in the area of software and systems engineering or information systems who study advanced topics concerning the organization and management of software development projects and process improvements projects

Hybrid Polymeric Nanocomposites from Agricultural Waste Sefiu Adekunle

Bello, 2022-10-17 Hybrid Polymeric Nanocomposites from Agricultural Waste examines the use of agricultural by products for green production of new materials It covers nanoparticle synthesis from agricultural wastes and nanocomposite development with a focus on polyethylene polylactic acid polymethylmethacrylate and epoxy resins and considers possible biomedical and engineering applications Showcases agricultural waste as polymer reinforcements to replace expensive synthetic fibres that discourage wide polymeric nanocomposite applications Discusses green synthesis and characterisation of hybrid nanocomposites from polylactic acid polymethylmethacrylate recycled new polyethylene and epoxy resins Contrasts hybrid nanocomposites properties with standard nanocomposites using automotive case studies The book is aimed at researchers advanced students and industrial professionals in materials polymer and mechanical engineering and related areas interested in the development and application of sustainable materials

ECIME2015-9th European Conference on IS Management and Evaluation Dr Elias Pimenidis and Dr Mohammed Odeh, 2015-09-07

The 9th European Conference on Information Management and Evaluation ECIME is being hosted this year by the University of the West of England Bristol UK on the 21 22 September 2015 The Conference Chair is Dr Elias Pimenidis and the Programme Chair is Dr Mohammed

Odeh both from the host University ECIME provides an opportunity for individuals researching and working in the broad field of information systems management including IT evaluation to come together to exchange ideas and discuss current research in the field. This has developed into a particularly important forum for the present era where the modern challenges of managing information and evaluating the effectiveness of related technologies are constantly evolving in the world of Big Data and Cloud Computing. We hope that this year's conference will provide you with plenty of opportunities to share your expertise with colleagues from around the world. The keynote speakers for the Conference are Professor Haris Mouratidis from the School of Computing Engineering and Mathematics University of Brighton UK who will address the topic Rethinking Information Systems Security, Dr Mohammed Odeh from the University of the West of England Bristol UK and Dr Mario Kossmann from Airbus UK who will talk about The Significance of Information Systems Management and Evaluation in the Aerospace Industry. ECIME 2015 received an initial submission of 55 abstracts. After the double blind peer review process 28 academic Research papers, 5 PhD Research papers, 1 Masters Research paper and 3 Work in Progress papers have been accepted for these Conference Proceedings. These papers represent research from around the world including Austria, Botswana, Cyprus, Czech Republic, Ireland, Japan, Kuwait, New Zealand, Norway, Poland, Portugal, Slovakia, Russia, South Africa, South Korea, Sweden, The Netherlands, UK and the USA.

Engineering Trustworthy Software Systems Zhiming Liu, Zili Zhang, 2016-02-29. This volume contains the lecture notes of the five courses and one seminar given at the School on Engineering Trustworthy Software Systems SETSS 2014 held in September 2014 at Southwest University in Chongqing, China. The material is useful for postgraduate students, researchers, academics and industrial engineers who are interested in the theory and practice of methods and tools for the design and programming of trustworthy software systems. The common themes of the courses include the design and use of theories, techniques and tools for software specification and modeling, analysis and verification. The courses cover sequential programming, component and object software, hybrid systems and cyber physical systems with challenges of termination, security, safety, security fault tolerance and real time requirements. The techniques include model checking, correctness by construction through refinement and model transformations, synthesis and computer algebra.

ECEL2015-14th European Conference on e-Learning, Amanda Jefferies and Marija Cubric, 2015-10-13. These Proceedings represent the work of contributors to the 14th European Conference on e Learning ECEL 2015 hosted this year by the University of Hertfordshire Hatfield UK on 29-30 October 2015. The Conference and Programme Co Chairs are Professor Amanda Jefferies and Dr Marija Cubric both from the University of Hertfordshire. The conference will be opened with a keynote address by Professor Patrick McAndrew, Director Institute of Educational Technology, Open University UK with a talk on Innovating for learning, designing for the future of education. On the second day the keynote will be delivered by Professor John Traxler, University of Wolverhampton UK on the subject of Mobile Learning: No Longer Just e Learning with Mobiles. ECEL provides a valuable platform for

individuals to present their research findings display their work in progress and discuss conceptual advances in many different branches of e Learning At the same time it provides an important opportunity for members of the EL community to come together with peers share knowledge and exchange ideas With an initial submission of 169 abstracts after the double blind peer review process there are 86 academic papers 16 Phd Papers 5 Work in Progress papers and 1 non academic papers in these Conference Proceedings These papers reflect the truly global nature of research in the area with contributions from Algeria Australia Austria Belgium Botswana Canada Chile Cov entry Czech Republic Denmark Egypt England Estonia France Germany Ireland Japan Kazakhstan New Zealand Nigeria Norway Oman Portugal Republic of Kazakhstan Romania Saudi Arabia Scotland Singapore South Africa Sweden the Czech Republic Turkey Uganda UK United Arab Emirates UK and USA Zimbabwe A selection of papers those agreed by a panel of reviewers and the editor will be published in a special conference edition of the EJEL Electronic Journal of e Learning www.ejel.org *Wireless Communication And Network - Proceedings Of 2015 International Workshop (Iwwcn2015)* Akira Namatame, Srikanta Patnaik, 2015-11-30 This book is a collection of all papers presented at the 2015 International Workshop on Wireless Communication and Network IWWCN 2015 which was held on August 21-23 2015 in Kunming Yunnan China The book provides cutting edge development and signification contributions to all major fields of wireless communication and network The book will benefit global researchers and practitioners in the field **The Internet of People, Things and Services** Claire Simmers, Murugan Anandarajan, 2018-03-19 The transformational technologies of the Internet Web compound continue to exert a vast and readily apparent influence on the way we live and work In recent times internet penetration is now very high in most parts of the world impacting the context and content of the workplace and the boundary between work and private life is even more porous Not only has the reach increased but the technologies to access the Internet Web have further evolved towards increasing portability The hardware evolution from desktops to laptops to mobile technologies phones tablets watches eyeglasses marches forward The increasing mobility and 24/7 accessibility offers the opportune time to revisit the transformations occurring Today the Internet consists of billions of digital devices people services and other physical objects with the potential to seamlessly connect interact and exchange information about themselves and their environment Organizations now use these digital devices and physical objects to produce and consume Internet based services This new Internet ecosystem is commonly referred to as the Internet of People Things and Services IoPTS In this follow up to their 2006 volume Simmers Anandarajan examine how The Internet of People Things and Services IoPTS transforms our workplaces Information and communications technology ICT expansion from desktops to laptops to ubiquitous smart objects that sense and communicate directly over the internet the IoPTS offers us the opportune time to revisit how the Internet transforms our workplaces [Principles and Applications of RELAX: A Robust and Universal Estimator](#) Renbiao Wu, Qiongqiong Jia, Lei Yang, Qing Feng, 2019-03-27 The multiple signal demixing and parameter

estimation problems that result from the impacts of background noise and interference are issues that are frequently encountered in the fields of radar sonar communications and navigation Research in the signal processing and control fields has always focused on improving the estimation performance of parameter estimation methods at low SNR and maintaining the robustness of estimations in the presence of model errors This book presents a universal and robust relaxation estimation method RELAX and introduces its basic principles and applications in the fields of classical line spectrum estimation time of delay estimation DOA estimation and radar target imaging This information is explained comprehensively and in great detail and uses metaphors pertaining to romantic relationships to visualize the basic problems of parameter estimation the basic principles of the five types of classical parameter estimation methods and the relationships between these principles The book serves as a reference for scientists and technologists in the fields of signal processing and control while also providing relevant information for graduate students in the related fields

Late Applications For Universitys Of Technology 2015 Introduction

In the digital age, access to information has become easier than ever before. The ability to download Late Applications For Universitys Of Technology 2015 has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Late Applications For Universitys Of Technology 2015 has opened up a world of possibilities.

Downloading Late Applications For Universitys Of Technology 2015 provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Late Applications For Universitys Of Technology 2015 has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Late Applications For Universitys Of Technology 2015. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Late Applications For Universitys Of Technology 2015. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Late Applications For Universitys Of Technology 2015, users should also consider

the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Late Applications For Universitys Of Technology 2015 has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.
