Drawing from social constructionist, feminist and critical traditions, Progressive Community Organizing affirms the practice of issue framing and offers two innovative frameworks that will change the way students of organizing think about their work. Progressive Community Organizing is ideal for both undergraduate and graduate courses focused on community theory and practice, community organizing, community development and social change and service learning. The second edition presents new case studies including those of a welfare rights organization and a youth-led LGBTQ organization. There are also new sections on the capabilities approach, queer theory, the Civil Rights movement and the practices of self-inquiry and non-violent communication. Discussion of global justice has been expanded significantly and includes an account of a transnational action research project in post-earthquake Haiti. Each chapter contains discussion questions, written and web resources and a list of key terms.
