Ghosts By Daylight:

Ghosts By Daylight Janine di Giovanni, 2011-07-04 Before I reached the stairwell I saw something out of the corner of my eye A strange and beautiful man had dropped to his knees in front of me unencumbered unembarrassed I stopped short He was slender almost Asiatic looking wearing baggy combat trousers and a T shirt He was flirting and then he was laughing at my reaction There was not much for me to do but also smile Janine and Bruno first fell in love as young reporters in the besieged city of Sarajevo Years later after endless phone calls much of what the French call *malentendu* secret trysts in foreign cities numerous break ups three miscarriages countless stories of rebel armies and a dozen wars that had passed between them they arrive in Paris one rainy January to begin a new life together The remnants of their separate lives now left behind are tentatively unpacked into their shared apartment on the Right Bank Bruno's heavy blanket from Ethiopia a set of long feathered arrows from Brazil an ash tray stolen from a hotel in Algeria and Janine's flak jacket and canvas boots still full of sand from the Western Desert in Iraq But having met in another lifetime in another world ordinary civilian life doesn't come easily War has become part of them it had brought them together and though both are damaged by it neither can quite leave it behind And the difficult journey that follows through their mix of joy and terror at becoming parents Bruno's battle with post traumatic stress and addiction and Janine's determination to make France her home leads to an understanding of the truth that people who deeply love each other cannot always live together A searing profoundly moving love letter beautifully written *Ghosts by Daylight* is a powerfully raw portrait of marriage and motherhood in the aftermath of war

The Crimson Blind and Other Ghost Stories H. D. Everett,2006 Mrs H D Everett was the last in a long line of gifted Victorian novelists who knew how to grip the reader through the invasion of everyday life by the abnormal and dramatic leaving the facts to produce their special thrills without piling on the agony I always know says one of her characters how to distinguish a true ghost story from a faked one The true ghost story never has any point and the faked one dare not leave it out *Ghosts of the Gothic* Judith Wilt,2014-07-14 In a fascinating study of what during the last decade rekindled an avid readership Judith Wilt proposes a new theory of Gothic fiction that challenges its reputation as merely a formula to be

outgrown or a stock of images for the creation of terror Emphasizing instead its status as an enduring component of the imagination she establishes the Gothic as the mothering form for three other popular genres detective historical and science fiction Originally published in 1980 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Index to Short Stories--Supplement* Ina Ten Eyck Firkins,1929

A Haunted Land Dr. Robert Curran,2012-10-15 The spirits of the dead return in many shapes and in many locations in Ireland There are the wraith like ghosts and the full bodied type the dangerous and damaging the threatening and the merely frightening There are notorious buildings where down through the centuries spectres have been seen or heard some such as Leap Castle where psychics have been overwhelmed by the intensity of the atmosphere There are families pursued by spirits who warn them of impending death or seem to be trying to get back at them for some long forgotten wrongdoing Here are stories and details of the amazing variety of hauntings to be experienced throughout the country

Ghosts Are REAL Hugh Fairman & Tina Laurent,2012-07-17 This book is filled with images that go a long way toward revealing the processes that underlie the phenomena that we call ghosts or spirits Only one of the people shown in four pictures on this back book cover is unlikely to be known to the curious reader The other three are well known historic personages It may not be so easy to work out who may be represented here when these images are looked at for the first time but they are all ghosts of a kind By using special photographic techniques developed by a psychic medium and combining these techniques with some theoretical ideas based in mainstream physics and evolutionary biology the authors are able to demonstrate for the first time exactly how the paranormal actually works It is a story of great importance to every person whether they believe in ghosts or not since what is being revealed by these images also show what happens after death and that both religion and science are in fact correct in their worldviews

A Book to Burn and a Book to Keep (Hidden) Zhi Li,2016-06-07 Li Zhi s iconoclastic interpretations of history religion literature and social relations have fascinated Chinese intellectuals for centuries His approach synthesized

Confucian Buddhist and Daoist ethics and incorporated the Neo Confucian idealism of such thinkers as Wang Yangming 1472-1529. The result was a series of heretical writings that caught fire among Li Zhi's contemporaries despite an imperial ban on their publication and intrigued Chinese audiences long after his death. Translated for the first time into English, Li Zhi's bold challenge to established doctrines will captivate anyone curious about the origins of such subtly transgressive works as the sixteenth-century play *The Peony Pavilion* or the eighteenth-century novel *Dream of the Red Chamber*. In *A Book to Burn* and *A Book to Keep Hidden*, Li Zhi confronts accepted ideas about gender questions, the true identity of history's heroes and villains, and offers his own readings of Confucius, Laozi, and the Buddha. Fond of vivid sentiment and sharp expression, Li Zhi made no distinction between high and low literary genres in his literary analysis. He refused to support sanctioned ideas about morality and wrote stinging social critiques. Li Zhi praised scholars who risked everything to expose extortion and misrule. In this sophisticated translation, English-speaking readers encounter the best of this heterodox intellectual's vital contribution to Chinese thought and culture. A Gallop of Ghost Ponies and Horses P.J. Cormack, 2018-06-18. Do you believe in ghosts, or more to the point, do you believe in pony and horse ghosts? Here you can read about the ghosts of ponies and horses that haunt, bring comfort, rescue, protect, defend, and even terrorise. From the spectral white stallion Stormrider who guards the moors, the Flying Horse called Pegasus, the little mare that carries the Demon Child on his mission of vengeance, the Wish Pony who visits sick children, the Pit Pony who returns to the miner who saved his life, the horse that carried the king into his last battle, the pony who saved her rider's life even after her own death, the little pony that came back for the dying Dancing Girl, and many more haunting tales. They are all here with stories that will thrill, amuse, and even scare you. Twenty-one new and original stories of Ghost Ponies and Ghost Horses. [Aftermarket Afterlife](#) Seanan McGuire, 2024-03-05. Two-time finalist for the Hugo Award for Best Series. Kind of like taking a tour through a very deadly theme park made up of alternating parts, awesome and terrifying. Reactor. Seanan McGuire's New York Times bestselling and Hugo Award-nominated urban fantasy *InCryptid* series continues with the thirteenth book following the Price family cryptozoologists who study and protect the creatures living in secret all around us. Mary Dunlavy didn't intend to become a professional babysitter. Of course she didn't intend to die, either, or to become a crossroads ghost. As a babysitting ghost, she's been caring for the Price family for four generations, and she's planning to keep doing the job for the better part of forever. With her first charge finally back from her decades-long cross-dimensional field trip with a long-lost husband and adopted daughter in tow, it's time for Mary to oversee the world's most chaotic family reunion. And that's before the Covenant of St. George launches a full-scale strike against the cryptids of Manhattan, followed quickly by an attack on the Campbell Family Carnival. It's going to take every advantage and every ally they have for the Prices to survive what's coming, and for Mary to avoid finding out the answer to a question she's never wanted to know: what happens to a babysitting ghost if she loses the people she's promised to protect. of Dread in Classical Antiquity Debbie Felton, 2018-04-27 Over the last two decades research in cultural geography and landscape studies has influenced many humanities fields including Classics and has increasingly drawn our attention to the importance of spaces and their contexts both geographical and social how spaces are described by language what spaces are used for by individuals and communities and how language use and the passage of time invest spaces with meaning In addition to this spatial turn in scholarship recent years have also seen an emotive turn an increased interest in the study of emotion in literature Many works on landscape in classical antiquity focus on themes such as the sacred and the pastoral and the emotions such spaces evoke such as respectively feelings of awe or tranquillity in settings both urban and rural Far less scholarship has been generated by the locus terribilis the space associated with negative emotions because of the bad things that happen there In short the recent emotive turn in humanities studies has so far largely neglected several of the more negative emotions including anxiety fear terror and dread The papers in this volume focus on those neglected negative emotions especially dread and they do so while treating many types of space including domestic suburban rural and virtual and while covering many genres and authors including the epic poems of Homer Greek tragedy Roman poetry and historiography medical writing paradoxography and the short story Real Ghost Stories William Thomas Stead, 1897 *Twentieth Century*, 1913 *The Nineteenth century and after* London **The Nineteenth Century and After**, 1913
