History Paper 1 September 2014 Memorandum For Grade 1:

Booze, Cigarettes, and Constitutional Dust-Ups Ryan Manucha, 2022-10-15 Gerard Comeau a retiree living in rural New Brunswick never thought his booze run would turn him into a Canadian hero In 2012 after Comeau had driven to Quebec to purchase cheaper beer and crossed back into his home province police officers participating in a low stakes sting operation tailed and detained him confiscated his haul and levied a fine of less than 300 Countries routinely engage in trade wars and erect barriers to protect domestic industries from foreign competition Comeau however was detained by the full force of the law for engaging in commerce with a Canadian business on the other side of a domestic border With Comeau s story as its starting point *Booze Cigarettes and Constitutional Dust Ups* tells the fascinating tale of Canadian interprovincial trade Ryan Manucha examines the historical political and legal forces that gave rise to the regulation of interprovincial commerce in Canada the trade offs that come with liberalized domestic free trade and Canada s enduring pursuit of economic union The pandemic laid bare the vulnerability of global supply chains the fickleness of foreign trading partners and the surprising slipperiness of domestic trade In a global climate of increasingly isolationist geopolitics the history and possibility of Canada s economic union quirks and all deserve careful attention **Withdrawal** Gregory A. Daddis, 2017-09-01 In a riveting sequel to his celebrated *Westmoreland s War* Daddis offers a bold new interpretation of America s first lost war Upending myths of a better war that led to victory in Vietnam *Withdrawal* is required reading for anyone hoping to understand the final years of American intervention in Southeast Asia **American Military Communities in West Germany** John W. Lemza, 2016-05-13 On April 28 1946 a small group of American wives and children arrived at the port of Bremerhaven West Germany the first of thousands of military family members to make the trans Atlantic journey They were the basis of a network of military communities Little Americas that would spread across the postwar German landscape During a 45 year period which included some of the Cold War s tensest moments their presence confirmed America s resolve to maintain Western democracy in the face of the Soviet threat Drawing on archival sources and personal narratives this book explores these enclaves of Americanism from the U S government s perspective to the grassroots view of those who made their homes in Cold War Europe These families faced many challenges in balancing their military missions with their daily lives during a period of dynamic global change The author describes interaction in American communities that were sometimes separated sometimes connected with their German neighbors **Scotland's Choices** Iain McLean, 2014-05-30 Scotland s Choices now fully revised for the critical last few months before the referendum explains the choice that Scotland will have to make in September 2014 The authors clearly explain the issues and how each of the options would be put into place *American and Muslim Worlds before 1900* John Ghazvinian, Arthur Mitchell Fraas, 2020-02-06 *American and Muslim Worlds before 1900* challenges the prevailing assumption that when we talk about American and Muslim worlds we are talking about two conflicting entities that came into contact with each other in the 20th century Instead this book shows there is a long and

deep seam of history between the two which provides an important context for contemporary events and is also important in its own right Some of the earliest American Muslims were the African slaves working in the plantations of the Carolinas and Latin America Thomas Jefferson a slaveholder himself was frequently called an infidel and suspected of hidden Muslim sympathies by his opponents Whether it was the sale of American commodities in Central Asia Ottoman consuls in Washington orientalist themes in American fiction the uprisings of enslaved Muslims in Brazil or the travels of American missionaries in the Middle East there was no shortage of opportunities for Muslims and inhabitants of the Americas to meet interact and shape one another from an early period

Erased Patricia Owens, 2025-01-21 How a field built on the intellectual labor and expertise of women erased them The academic field of international relations presents its own history as largely a project of elite white men And yet women played a prominent role in the creation of this new cross disciplinary field In *Erased* Patricia Owens shows that since its beginnings in the early twentieth century international relations relied on the intellectual labour of women and their expertise on such subjects as empire and colonial administration anticolonial organising non Western powers and international organisations Indeed women were among the leading international thinkers of the era shaping the development of the field as scholars journalists and public intellectuals and as heterosexual spouses and intimate same sex partners Drawing on a wide range of archival sources and weaving together personal institutional and intellectual narratives Owens documents key moments and locations in the effort to forge international relations as a separate academic discipline in Britain She finds that women's ideas and influence were first marginalised and later devalued ignored and erased Examining the roles played by some of the most important women thinkers in the field including Margery Perham Merze Tate Eileen Power Margaret Cleeve Coral Bell and Susan Strange Owens traces the intellectual and institutional legacies of misogyny and racism She argues that the creation of international relations was a highly gendered and racialised project that failed to understand plurality on a worldwide scale Acknowledging this intellectual failure and recovering the history of women in the field points to possible sources for its renewal

Ethnographies of U.S. Empire Carole McGranahan, John F. Collins, 2018-08-02 How do we live in and with empire The contributors to *Ethnographies of U S Empire* pursue this question by examining empire as an unequally shared present Here empire stands as an entrenched if often invisible part of everyday life central to making and remaking a world in which it is too often presented as an aberration rather than as a structuring condition This volume presents scholarship from across U S imperial formations settler colonialism overseas territories communities impacted by U S military action or political intervention Cold War alliances and fissures and most recently new forms of U S empire after 9 11 From the Mohawk Nation Korea and the Philippines to Iraq and the hills of New Jersey the contributors show how a methodological and theoretical commitment to ethnography sharpens all of our understandings of the novel and timeworn ways people live thrive and resist in the imperial present Contributors Kevin K Birth Joe Bryan John F Collins Jean Dennison Erin Fitz Henry Adriana Mar a

The Routledge Handbook on Crime and International Migration Sharon Pickering, Julie Ham, 2017-07-14 The Routledge Handbook on Crime and International Migration is concerned with the various relationships between migration crime and victimization that have informed a wide criminological scholarship often driven by some of the original lines of inquiry of the Chicago School Historically migration and crime came to be the device by which Criminology and cognate fields sought to tackle issues of race and ethnicity often in highly problematic ways However in the contemporary period this body of scholarship is inspiring scholars to produce significant evidence that speaks to some of the biggest public policy

questions and debunks many dominant mythologies around the criminality of migrants The Routledge Handbook on Crime and International Migration is also concerned with the theoretical empirical and policy knots found in the relationship between regular and irregular migration offending and victimization the processes and impact of criminalization and the changing role of criminal justice systems in the regulation and enforcement of international mobility and borders The Handbook is focused on the migratory fault lines between the Global North and Global South which have produced new or accelerated sites of state control constructed irregular migration as a crime and security problem and mobilized ideological and coercive powers usually reserved for criminal or military threats Offering a strong international focus and comprehensive coverage of a wide range of border criminal justice and migration related issues this book is an important contribution to criminology and migration studies and will be essential reading for academics students and practitioners interested in this field
