

Needle threader

The needle must be in the up position to use the built-in needle threader. We also recommend lowering the presser foot.

1. Use the handle to pull the needle threader all the way down, catching the thread under the guide (A).
2. Push back to bring the needle threader forward until the metal flanges cover the needle. A small hook will pass through the needle eye (B).
3. Place the thread under the flanges in front of the needle, so the thread catches into the small hook (C).
4. Let the needle threader gently swing back. The hook puts the thread through the needle eye and forms a loop behind the needle. Pull the thread loop out behind the needle.
5. Place the thread under the presser foot.

Note: The needle threader is designed to be used for size 70-120 needles. You cannot use the needle threader for size 60 needles or smaller, the wing needle, twin needle, triple needle or when the Senior One-Step Buttonhole Foot is on. There are also some other optional accessories that require manual threading of the needle.

When threading the needle manually, make sure that the needle is threaded from front to back. The white presser foot gently makes it easy to see the eye of the needle. The built-in view-er can be used as a magnifying glass.

Cutting the thread

Once you have finished sewing, you can cut the threads by raising the presser foot and pulling the threads on the left side of the machine from back to front, into the thread cutter.

Husqvarna 20sewing Machine Manual

WJ Hussar

Husqvarna 20sewing Machine Manual:

As recognized, adventure as without difficulty as experience roughly lesson, amusement, as with ease as bargain can be gotten by just checking out a book **Husqvarna 20sewing Machine Manual** next it is not directly done, you could take on even more concerning this life, regarding the world.
