Figure 1. Exploded view

## Description

The 6150-ID (Figure 1) is an addressable PIR device that interfaces with the PinPoint system. This system provides flexible and reliable two-way communication between the device and the controller.

## Mounting location

### Avoid false alarm sources (Figure 2)

The unit should not "see" sources of heat or cold. For false alarm free operation, no part of an unwanted hot spot should enter any part of a zone.

### Locate for cross traffic (Figure 3)

Place the unit where intruders move across the beams, not toward the unit. For best detection, an intruder should cross the entire zone.

### Do not block the coverage pattern (Figure 4)

The unit requires a clear line of sight. Inform end-users not to block the coverage pattern with inventory or furniture.
