Larisa Troche,2012-02-08 ABOUT THE BOOK I think entrepreneurs because of their high level of achievement and drive are constantly looking at ways to do things faster better smarter I am no exception As an overly busy businesswoman I was drawn to the title of the book as I was looking for productivity tools that I would actually use on a regular basis In the hopes that the pages contained a magic wand I quickly scanned through them for the one tip that I could immediately use something that would make a dent in my workload I was also very drawn to the concept of having a quiet clutter free mind What I liked about David Allen s Getting Things Done The Art of stress Free Productivity was that there was a certain simplicity to his suggestions for getting organized MEET THE AUTHOR Ms Larisa Troche is a multi preneur as founder and CEO of her company The Larisa Group which provides professional management and consulting services for small business and real estate She is also the founder of Pink Passport Society Inc the premier worldwide insider s club for women creating wealth through community and connections Larisa holds a California Real Estate Broker s license a Masters in Business Administration and a Bachelor s degree in Human Relations Management EXCERPT FROM THE BOOK Next in Part II Practicing Stress free Productivity the whole system unfolds and it s finally time to begin starting with preparing the time space and tools for implementing the techniques Extra attention needs to be paid to correctly setting up your filing system which should include a General Reference File emails brochures notes etc that you want to retain for future use using one alphabetic filing system not multiple iterations for different projects Start with all the physical things that aren t where they should be Ideally you ll want to try and put everything into your in basket literally Once you ve collected all the things it is time to empty your brain and make a list of every single thing every mental to do on a separate sheet of paper not one long list Emptying your brain includes writing your voicemails down and putting them in the inbox as well as your day planner if you use one Buy a copy to continue reading **Getting Things Done (summary)** David Allen,2007 getAbstract Summary Get the key points from this book in less than 10 minutes The metaphor of the stress free mind as a still pond encapsulates the message of David Allen s best selling book When a stone is thrown into a pond the size of the ripples correspond to the size of the stone Allen points out that the essence of stress free living is getting the ripples of your mind to correspond with the size of the tasks on your to do list But you don t reach Allen s placid pond via a quiet Zen like path Instead you calm the waters of your mind by building and maintaining a rigid organizational system that s so efficient that you never have to worry about any task once it s been fed into the machine The popularity of this book probably owes as much to the stress level of the book buying public as it does to the level of innovation to be found in Allen s method of organization Often the actual time management techniques that Allen offers can get lost in fancy jargon and fall short of his general observations about stress productivity and the mind But getAbstract recommends this manual for a productive life to anyone looking for help in dealing

with stress and an overheating to do list you're sure to end up with a fresh approach or two in your inbox Book Publisher
